Active ingredient: Nizatidine

Dosage form:white to faintly yellowish white tablet (ϕ : 6.7mm, thickness: 3.3mm)

Imprint or print on wrapping:アシノン錠 75mg　ZP45

Effects of this medicine

This antiulcer medicine blocks histamine H_2 receptor and inhibits gastric acid secretion. It is usually used to treat gastric/duodenal ulcer, esophageal inflammation, acute gastritis, and acutely exacerbated chronic gastritis.

The following patients may need to be careful when using this medicine.Be sure to tell your doctor and pharmacist.

- If you ever experienced any allergic reaction (itch, rash etc.) to any medicines or foods.
  If you are a patient with hepatopathy or renal damage.
- If you are pregnant or breastfeeding.
- If you are taking any other medicinal products. (Some medicines may interact to enhance or diminish medicinal effects. Beware of over-the-counter medicines and dietary supplements as well as other prescription medicines.)

Dosing schedule (How to take this medicine)

- Your dosing schedule prescribed by your doctor is((to be written by a healthcare professional))
- General dosage regimen: For the treatment of gastric/duodenal ulcer: For adults, take 2 tablets (150mg of the active ingredient) at a time, twice a day, after breakfast and at bedtime. Alternatively, 4 tablets (300mg) can be taken once a day at bedtime.
  For the treatment of reflux esophagitis: For adults, take 2 tablets (150mg of the active ingredient) at a time, twice a day, after breakfast and at bedtime.
  For the treatment of acute gastritis and acutely exacerbated chronic gastritis: For adults, take 1 tablet (75mg of the active ingredient) twice a day, after breakfast and at bedtime.
  The dose may be adjusted according to your age and symptoms. Strictly follow the instructions of your doctor/pharmacist in any case.
- Take the missed dose as soon as possible. However, if it is almost time for the next dose, skip the missed dose and continue your regular dosing schedule. DO NOT take a double dose to make up for the missed dose.
- If you took too much of this medicine (more than ordered), check with your doctor/pharmacist.
- Do not stop taking this medicine without the instructions of your doctor.
