SPIN ULTIMATE

DESIGN INSTRUCTIONS

Template files must be sent as AI (Adobe Illustrator), EPS (Encapsulated PostScript), or PDF vector file types. Embedded high res 300 dpi JPGs are acceptable within file.

Convert all vector art and text to outlines.

Make sure your art is in CMYK color mode.

If custom fonts and colors are desired or you have specific design instructions, please provide further information in the chart below the template. Please send font files.

Place your art on the '*Artwork goes here*' layer. Art should extend past the *'Template'* guides about 1"-2", and be in an overall square shape. Use *'Template'* guides as a clipping mask.

Template scale is 1/1 (actual size). Art will be scaled proportionally for other sizes.
