# ROBUST

Introducing the IsatPhone 2 from Inmarsat, designed for the most reliable satellite communications network in the world. IsatPhone 2 is the latest addition to our handheld satellite phone portfolio with a range of additional features that help you to stay connected in the most extreme and remote locations.

IsatPhone 2 is a tough phone for a tough world. The robust handset has been engineered to cope with anything that nature can throw at it - from searing heat to icy blasts; desert sandstorms or monsoon rain. And with fast network registration, an unrivalled battery life offering 8 hours of talk time and up to 160 hours of standby time, you know you can always depend on the IsatPhone 2.

What's more, IsatPhone 2 gives you the excellent voice clarity and call stability you have come to expect from Inmarsat's network.

Ready, Reliable, Robust - IsatPhone 2 delivers it all.

# IsatPhone2

inmarsat
The mobile satellite company™

- Dependable connectivity
- High quality voice
- Rugged design
- Assistance button and GPS tracking
- Extended battery capacity
- Incoming call alerts even with antenna stowed

From the world's leading provider
of mobile satellite communications

# READY TO GO

**Out of the box:** IsatPhone 2, battery, chargers, wired handsfree headset, wrist strap, support USB memory drive, holster, quick start guide and warranty

# ROBUST FEATURES

A powerful, dependable satellite phone delivering high voice quality, voicemail, text and email messaging, plus tracking and assistance alert features. All packaged in an ergonomically designed rugged handset.

- **Ready:** fast network registration in under 45 seconds and unrivalled battery life, with 8 hours of talk time and up to 160 hours of standby time
- **Reliable:** operates over global geostationary satellites ensuring reliable call stability and network connection
- **Robust:** designed and engineered to withstand the most extreme conditions; operates at -20°c to +55°c (larger keypad for easy dialling when wearing gloves); dust, splash and shock resistant (IP65, IK04); humidity tolerance from 0 to 95%
- **Reassuring:** location services, including tracking and assistance button, keep people updated of your GPS coordinates when it matters. Receive notification of inbound calls even with antenna stowed
- **Readable:** easy-to-use interface with large high-visibility, scratch-resistant transflective display that is readable even in bright sunlight

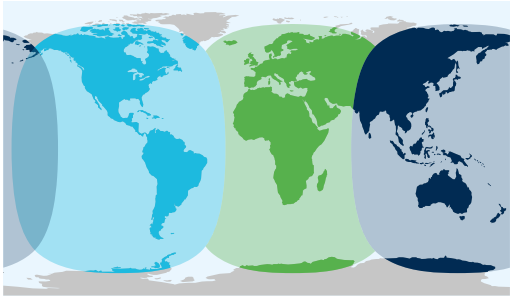
## Coverage



I-4 Americas  Alphasat  I-4 Asia-Pacific

This map is illustrative of IsatPhone 2 coverage. It does not provide a guarantee of the extent of service availability. From November 2013, Alphasat coverage prioritises the region north of 44°S, and service may degrade south of this latitude.

IsatPhone 2 operates globally over the Inmarsat-4 satellites and Alphasat.
