FEATURED PRODUCT

KÄRCHER CV 300 VACUUM

Dual motor vacuum with max power, great maneuverability and quiet operation.

Kärcher's CV 300 dual-motor upright vacuum is ergonomically designed to be simultaneously powerful, lightweight and easy to maneuver. Our 1,000 watt vacuum motor picks up more dirt in a single pass than comparable single-motor counterparts. Our patented filtration system filters out particulates and allergens down to 0.3 microns. The CV family of commercial upright vacuums provide the power you need to clean in one of the lightest designs available on the market today.

- › Super Light: Weighs just 17 pounds, with the cable included!
- › Filter Bag Full Indicator: Alerts the operator when air flow is restricted due to a full filter bag, clogged filters or other blockage
- › Detachable hose allows quick and easy detail vacuuming.
- › Adjustable brush head for maximum cleaning effectiveness
- › Ergonomic carrying handle provides easy transport and also allows the vacuum to be used without the powerhead
- › Removable body to easily convert to a canister vacuum
- › Electronic brush control monitors the status of the brush, communicating the status through the lights on top of the power head
- › Rubberized wheels allow safe vacuuming on carpeting and hard floors

SAVE ENERGY DURING THE WINTER

1. Use a programable thermostat so you don't waste energy heating an empty house. If you come home around the same time everyday you can program it to start heating the house 10 minutes before you come home.
2. Change the heating system filter every month which will save up to 15% on annual energy costs. If your heating equipment is more than 10 years old it's time to schedule a check up from a licensed professional.
3. Shut the vents in rooms that are unused. Also close the doors to unused rooms so you aren't wasting heat in the rooms you don't use regularly.
4. According to the Edison Electric Institute, if you use your microwave instead of regular oven you can save up to 50% on energy costs.
5. Fill your washer and dryer with full loads of clothing. This will save on the electricity, water, and time it takes to do laundry.

RECIPE: FRENCH TOAST

SERVES: 6-8 PEOPLE

Ingredients:

- 6 ea. - Large Fresh Eggs
- 1/4 cup - D Milk or Half and Half
- 4 Tbsp. - Sugar
- 1 Tbsp. - Cinnamon
- 1 tsp - Vanilla
- 1 Squeeze of Fresh Orange
- 1 tsp - Salt
- 10-12 Slices - French Bread

Instructions:

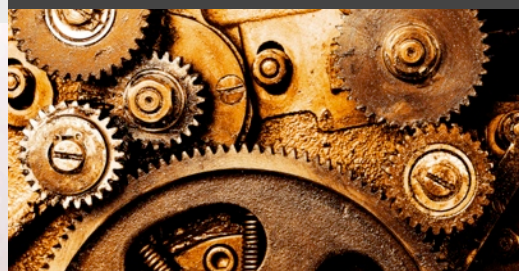

1. In a shallow baking dish, arrange the bread slices in a single layer. In a bowl, combine the eggs, half-and-half, vanilla, cinnamon, brown sugar and whisk until blended. Pour the mixture over the bread and let stand for 1 to 2 minutes so the bread can absorb the liquid. Turn the slices over and let the bread absorb the remaining liquid, 1 to 2 minutes more.
2. Preheat a griddle according to the manufacturer's instructions and coat generously with butter. When the griddle is hot, cook the bread in batches (do not overcrowd) until golden and crisp, 3 to 4 minutes per side.
3. Transfer the French toast to a warmed platter, dust with confection sugar or peanut butter. Serve immediately with maple syrup.

KILL GERMS QUICKLY!

D-GREASE

Pacific D-Grease™ is a new product that works as a multi-surface cleaner and degreaser. Your "go to" cleaner for all your degreasing jobs. Our degreaser can be used for both indoor and outdoor purposes! It is biodegradable and safe for use on all surfaces not harmed by water alone. When using Pacific D-Grease in your kitchen, you can use it on stainless steel surfaces, build-up in your dishwasher, the inside and outside of your microwave, countertops and many others. Wash down your shower and bathtub with degreaser and a warm sponge. There are many other uses for our degreaser: automotive use, warehouse, construction use, and landscaping.
