DESIGN GUIDELINES FOR CUSTOM CANOPY PRINTING

1. Use the Provided Template
Place your artwork on this template to ensure proper alignment during printing.

2. Focus on Visibility Hotspots
Position your main logo and key text inside the marked hotspot areas for maximum visibility from typical viewing angles.

3.Keep Important Elements Inside Safe Zones
All critical design elements (logos, text, etc.) should remain within the safe zones to avoid trimming or seam overlap.

4.Use High-Resolution Artwork
Submit vector files (AI, EPS, PDF) or raster images at 300 DPI at full size.

5.Don’t Flatten the Template
Keep layers intact for accurate print alignment.

6. Please email completed file to:
care@crownshadesusa.com
