DESIGNER LINES

By Amber Michelle

AJDC NEW TALENT WINNER

■ The American Jewelry Design Council (AJDC) has named Karin Jacobson as the winner of its New Talent Competition for 2002. Play is a central theme of Jacobson's work. She draws upon science fiction, comic books, mechanical toys and Japanese animation for her inspiration. She likes to make good design available to a broad audience, so she uses sterling and less expensive gems to let her focus on form while keeping innovative design affordable. Karin Jacobson will be in the Designer Gallery of the International Jewelry Design Guild's Design Collections 2002 in booth ND6 during the JA New York show July 28-31, 2002.
