Thank you for your interest in the **2019 *Mortise & Tenon* Summer Workshop**, taking place **June 17-21** at our shop in Sedgwick, Maine.

Mortise & Tenon exists to "cultivate reverence for the dignity of humanity and the natural world through the celebration of handcraft." This mission informs our **goal for this workshop**, which is to "cultivate a humane work ethic (i.e. human-powered and human-guided) through respect for and appreciation of physical labor and development of self-reliance through broad competence."

Besides time at the bench working with period tools, we will examine historic furniture, explore the forest environment, and make use of the shop's research library. **Please note that this week will be physically exertive**, akin to taking a five-day hiking trip.

There is **not one specific project** intended for everyone but we will work with each student beforehand to develop a project that is based on his or her interest that will provide challenge and growth.

We charge **no tuition** for participation in this workshop, but instead offer it on **work exchange** – two days of students helping us on projects around the shop and three days of instruction and bench time. All we ask is that each student chip in $50 to help cover the cost of breakfasts and lunches.

Please see the "**Information & Logistics**" sheet for flight planning, accommodations, and other information. You may email us at info@mortiseandtenonmag.com with further questions.

To help us select the six candidates best suited for this class, we would like to know a little bit more about you. **Please print this form and write a brief paragraph or two answering the following**:

1. Please tell us about your experience with woodworking, historic furniture, or the natural world (hiking, traditional skills, etc.).
