SPA.GIENE® TOTAL CLEAN FOR SPA BATHS, JACUZZI BATHS & HOT TUBS APPLICATION CHART

PRODUCT	APPLICATION		DIRECTIONS	DILUTIONS	SAFETY	PPE
SPA.GIENE® SPA.GIENE is a wide spectrum anti-microbial product. The base quaternary ammonium component is of the highest grade available. It is designed to effectively and hygienically clean the entire surface, pipes and pump system of spa baths, hydrotherapy baths, hydro baths, whirlpool baths and spa pools.	Pipe and pump cleaning and sanitising	 	We recommend viewing the SPA.GIENE training video prior to using the product. https://vimeo.com/314370941 Before filling spa bath, spray SPA.GIENE at 1:4 dilution into jets, drain outlet and water return cover. Allow 1-2 mins before filling bath. Fill the spa bath to 2-3cm above the jets with cold or hot water (hot is preferred). Squeeze auto measure bottle to fill chamber with recommended dose of SPA.GIENE, 50ml per 200L of water. Turn on pump and run for 3-5mins. Foaming will occur. Empty and rinse clean, wipe using a clean cloth.	50ml per 200L	NON HAZARDOUS Safety: For prolonged contact, protection of the skin is recommended. WARNING Exclamation Mark - Irritant, dermal sensitiser, acute toxicity (harmful) not hazardous.	
SPA.GIENE breaks down and dislodges the body fat, hair, organic matter and biological waste from the pump system. The use of SPA.GIENE eliminates and prevents harmful bacteria PSEUDOMONAS AERUGINOSA - a major cause of infection from 'DIRTY' spa baths.	Spray and wipe all purpose sanitiser for bathroom and washable surfaces		Fill spray bottle 1:4 dilution and apply by trigger spray to surface to be cleaned. Allow to penetrate soilage and simply wipe off. Surface cleaning of the spa bath should only be done using SPA.GIENE spray & wipe. Do NOT use any other chemical in the spa.	1:4 (100ml in a 500ml spray bottle)
