Installation Instruction

Before You Begin

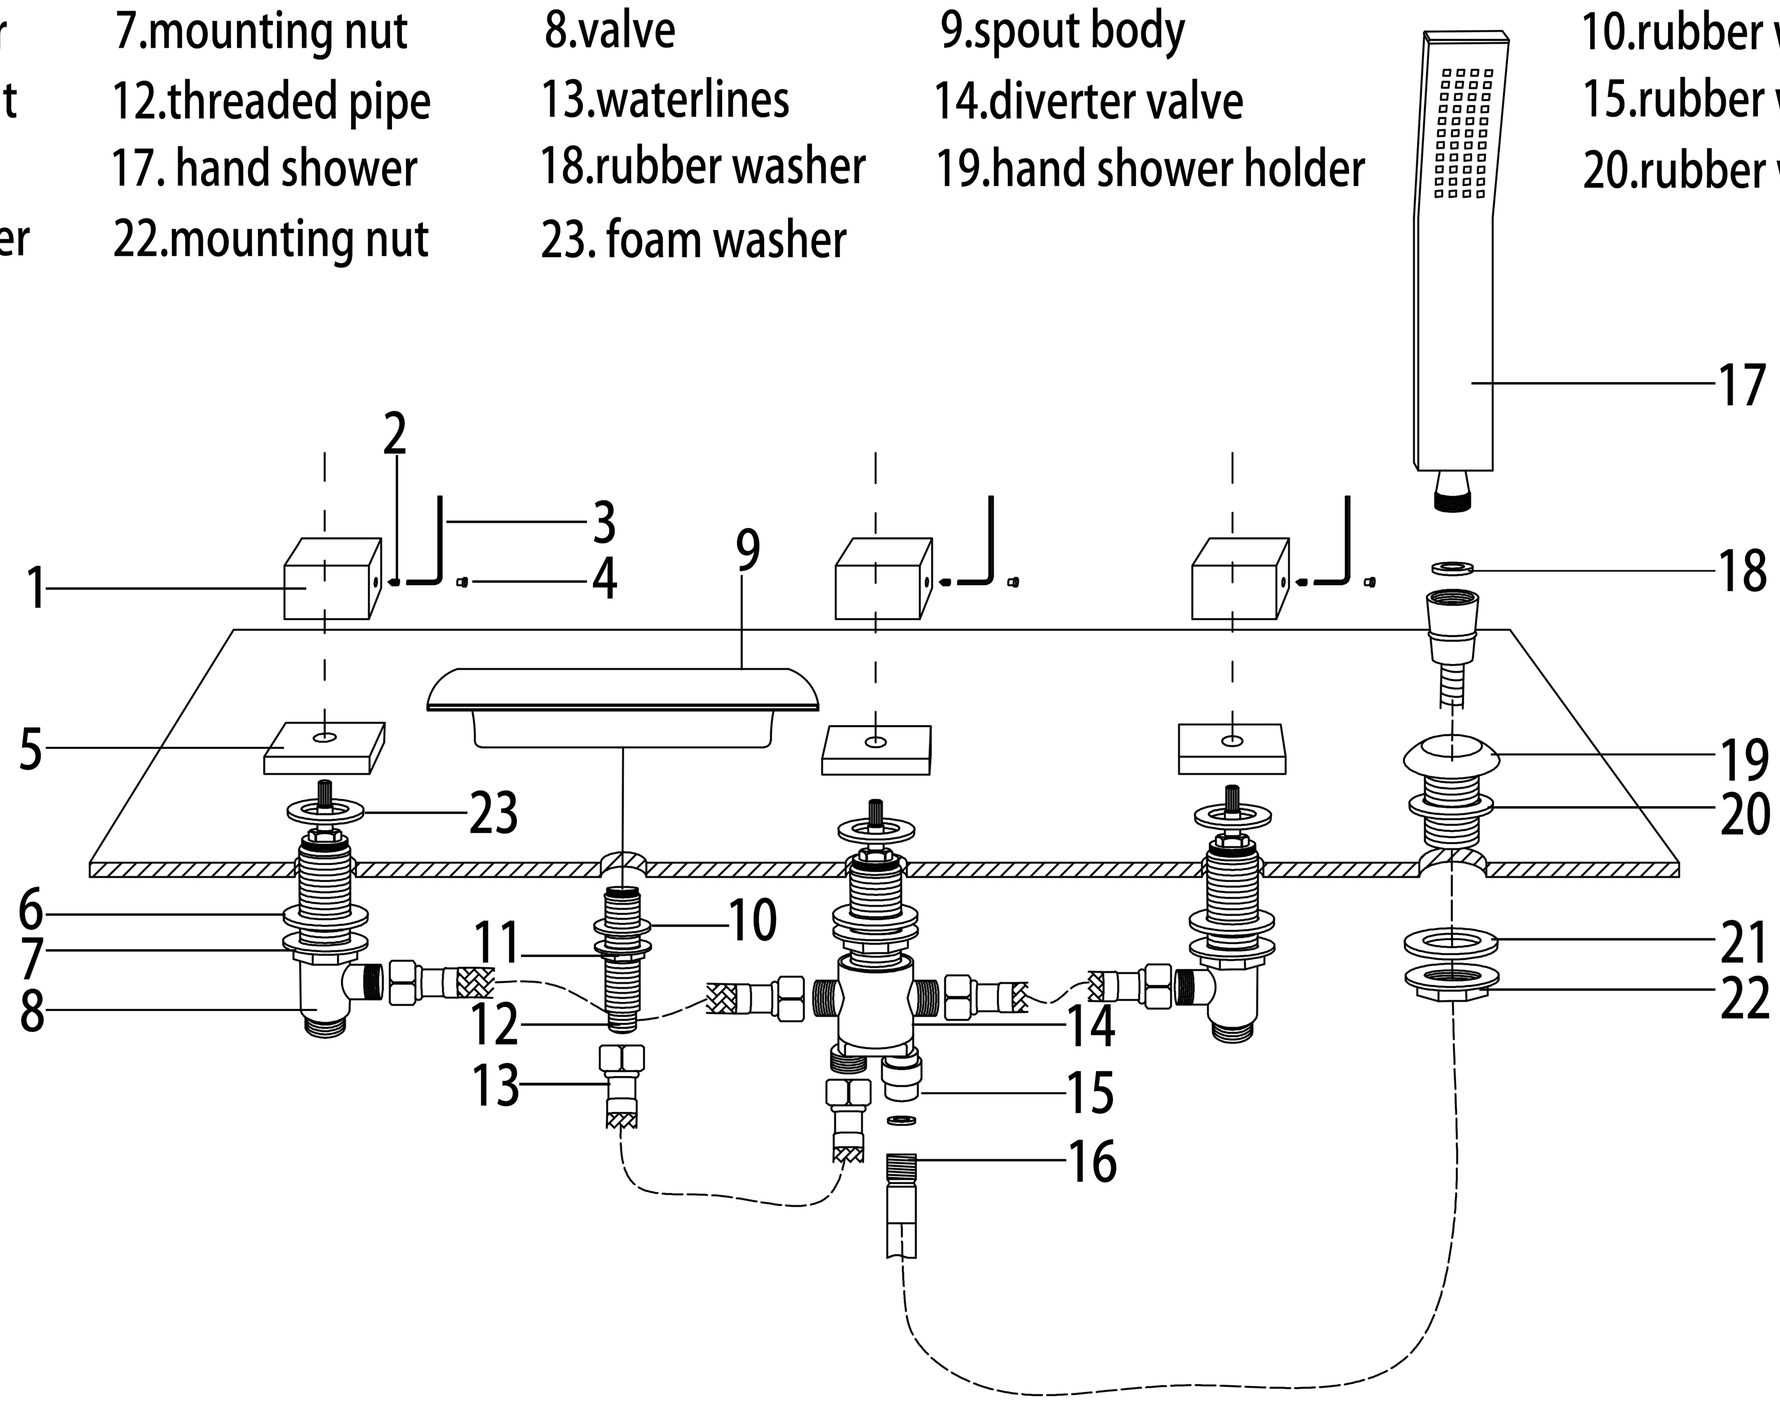
1. Shut off the main water supply.
2. Do not disassemble the main body, as it has been installed & commissioned correctly & precisely before leaving the factory.
3. To avoid the faucet from jamming, DO flush the water pipe before installation.
4. After installation, make sure every joint is safely sealed (NO LEAKAGE).
5. Make sure to connect the hot/cold inlet pipe correctly, if standing in front, hot water pipe connecting to the left and cold water pipe connecting to the right.
6. It is recommended that installation of the product be done by a professional plumber.

Cleaning & Maintenance

To keep product clean and shiny follow the instruction below.
1. Flush with clean water and dry with soft cloth only.
2. Do not use any detergent, polisher, sane-cloth, or a scraper.
3. Do not use acid detergent.

Installation

1.handle
2.set screw
3.Allen Key
4.indication button
5.base plate
6.rubber washer
7.mounting nut
8.valve
9.spout body
10.rubber washer
11.mounting nut
12.threaded pipe
13.waterlines
14.diverter valve
15.rubber washer
16.shower hose
17. hand shower
18.rubber washer
19.hand shower holder
20.rubber washer
21.rubber washer
22.mounting nut
23. foam washer



1.Insert spout body into specified drill hole on the counter top.
2.Install rubber washer to the threaded tail pipe of spout from underneath the counter top and then screw the mounting nut.
3.Install valve into specified drill hole underneath the counter top. Screw base plate into valve and fit the handle. Adjust the height and position of valve, then screw mounting nut to tighten valve underneath the counter top.
4.Tighten set screw with Allen Key to fix the handle and then put on indication button.
5.Install rubber washer and insert the hand shower holder into the specified drill hole. Put on the rubber washer and screw in the mounting nut securely underneath the counter top.
6.Connect the shower hose to the hand shower and diverter valve. Make sure to add rubber washer at both ends.
7.Connect the other waterlines according to the picture.
8.Connect waterlines(not included) onto the bottom of hot & cold valve and then to main water supply lines.
