Noguchi Table

FURNITURE AS ART

Sculptor Isamu Noguchi took materials such as stone, metal, wood, clay, bone, and paper and carved them into graceful, organic shapes. His Noguchi table joins a curved, solid wood base with a freeform glass top. The ethereal result does not diminish the practical design: a sturdy and durable table. This balance of sculptural form and everyday function has made the Noguchi table an understated and beautiful element in homes and offices since its introduction in 1948.

Isamu Noguchi

THREE-POINT LANDING

The table consists of just three pieces—a $\frac{3}{4}$ -inch plate-glass top rests on two curved, solid wood legs that interlock to form a tripod for self-stabilizing support.

PERFECT BALANCE

Noguchi's table evokes the grace and strength of a dancer, which is not surprising given that from 1942 until his death in 1988 he designed all of choreographer Martha Graham's sets.

SIGNATURE FEATURES

To assure authenticity, the signature of Isamu Noguchi appears on the longest edge of the glass top and on a medallion on the underside of the base. Under the medallion, his initials are stamped into the base.

Depth: 36"
Width: 50"
Height: 15 $\frac{3}{4}$ "

Noguchi Table

WARRANTY

The Noguchi table is covered by the Herman Miller Warranty for one year.
