CAST RAILROAD TIES

No more replacing rotted railroad ties; Big Grass' concrete railroad ties are a great way to finish out ponds, retaining walls, planting beds and walkways with the weathered look of wood and the lasting durability of concrete. Cast from molds of Thai teakwood railroad ties – spike marks and all. Available in pre-stained wood tone or unstained for on-site custom acid staining. *Not recommended for vehicle traffic.*

Dimensions: 39" x 7.5" x 6"

LATERITE

Laterite is a quarried natural stone used in ancient ruins of Cambodia and Thailand that have stood for over 1000 years.

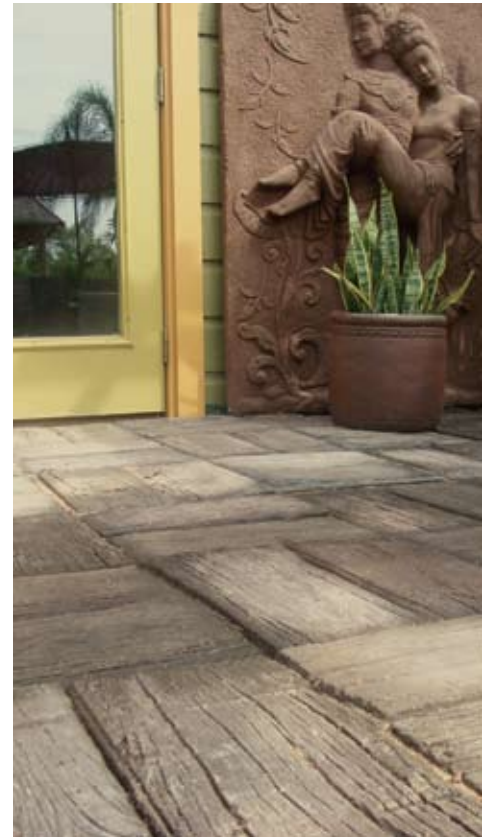

Formed through mineral decomposition and reformation of rock by the heat and intense rainfall in tropical regions, laterite has a high concentration of iron oxide which produces a rich rusty hue with a weathered texture. It complements contemporary and rustic settings. Use for patio pavers, walkways, wall construction, stepping stones, and water features. *Not recommended for vehicle traffic.*

Dimensions: 15.5" x 15.5" x 3.5"

TEXTURED CONCRETE PAVERS

Hand molded from weathered teak planks, these pavers imported from Thailand, can be arranged to create many design patterns. A beautiful and subtle alternative to manufactured pavers. Available in pre-stained wood tone or unstained for on-site custom acid staining. *Not recommended for vehicle traffic.*

Dimensions: 15" x 7.5" x 2.5"
