Thermage™

No surgery. No injections. No downtime.

**THERMAGE HAS THE ONLY FDA CLEARANCE
FOR NON-INVASIVE EYELID TREATMENTS**

Model is not an
actual patient.

Get the Younger Looking Eyes You Used to Have

Eyes by Thermage is the only procedure that helps smooth and tighten skin and decrease wrinkles and hooding in the eye area without surgery or injections, and little to no downtime.

- **Younger looking, more lifted eyes.** Eyes look brighter. Skin feels tighter and smoother.
- **No more tired-looking eyes.** Eyes appear more open and alert. Under-eye bags are reduced.
- **Make-up is applied more easily.** The newly smooth skin of your eyelids makes it easier to apply eye shadow and eye liner.
- **No bruising, swelling or sutures.** Wear make-up and return to your regular routine after the procedure.
- **FDA cleared.** Thermage is the first and only company to receive FDA clearance for non-invasive eyelid treatments.

Like all Thermage® procedures, Eyes by Thermage helps improve skin tone and texture while effectively tightening and contouring skin for an overall younger appearance. Patients benefit from a single treatment, with little to no downtime. Results are long-lasting, subtle and improve over time as new collagen forms. Individual results may vary depending on age and skin condition.

Side effects are generally mild and may include redness, swelling, blisters, bumps and rare instances of surface irregularities.

The Benefits Are Just What You've Been Looking for:

- **Tighter, smoother skin all around.** Skin is smoother and younger looking. With reduced crepiness, make-up is applied more easily.
- **Reduced hooding.** The upper eye area is tightened to reveal more eyelid and brighter, more refreshed eyes.
- **Tauter, smoother contours around the eye.** Reduces under-eye bags and takes years off your face.
- **Softened fine lines and crow's feet.** Results other treatments can't offer.

Eyes by Thermage Is Proven Safe and Effective

In a multi-center study, patients were treated with Eyes by Thermage and their results were followed for six months. Patients reported an overall procedural satisfaction and experienced smoother skin tone and easier make-up application.¹

Reported improvements over time	4 months	6 months
Improved upper eyelid hooding	83%	86%
Improved upper eyelid tightening	80%	88%
Improved lower eyelid tightening	78%	83%

Most patients reported minimal discomfort during the procedure.

The trials also showed that Eyes by Thermage is safe and side effects are minimal.

How Eyes by Thermage Works

As we age and our collagen stretches, skin sags and wrinkles appear. Eyes by Thermage uses patented FDA cleared technology that delivers heat into the skin to rejuvenate existing collagen and stimulate new collagen growth. The effects continue to improve for months with long-lasting results.
