WHY BOSS

Boss Industrial 10 ton log splitter has no competitor out there due to our patent design of Double Direction Splitting. Boss Industrial 10 ton electric log splitter wins with these unique features:

- Commercial grade hydraulic system, which is usually applied on big gasoline log splitters, is built in an incredible compact and efficient structure for home owners to use in garage.
- Patented double direction splitting is unique in the industry.
- More than sufficient power allows an optional cross wedge (CW-D1) to double the efficiency.
- Extra large tube log trays.
- 6.85 in. rugged steel wedge
- Stand included to save your back.
- Heavy duty electric motor ensures sufficient power and durability
- Easy to set up. Screw on the control handle lever and install the stand in minutes, you are ready to go.
- 3 Position control allows you stop at any point during splitting for safety.
- Easy to reach oil filling tube capped with ventailor
- 2 year warranty including hydraulics based on Boss outstanding specialty in hydraulic techniques for nearly 40 years.
