

# BACK MATE

It all begins with one hit. The Back Mate was developed for our entry level customers who are not looking to make a million backs, but occasionally need to make their own. Craft Inc. has taken the guesswork out of how to manually apply our patented easel hinges, and developed the "Back Mate".

When volume does not justify a Champ III, don't turn your back, use the Back Mate, a simple solution for a complex problem.

To see our selection of Struts and Backs visit us at [www.craft-inc.com/backs.aspx](http://www.craft-inc.com/backs.aspx)

Craft Inc. is now supplying high quality Struts and Backs.

Speak with one of our specialists for more info on this exciting new line.

# BACK MATE - Guide

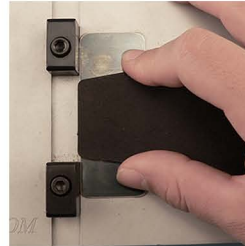

## Step #1

Insert Hinge into Applicator Bar with barrel up as shown.

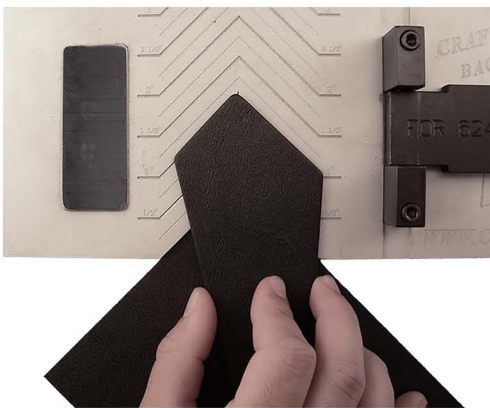

## Step #2

Line back of Strut up with guide, flip Hinge Applicator Bar and strike with hammer to apply Hinge.

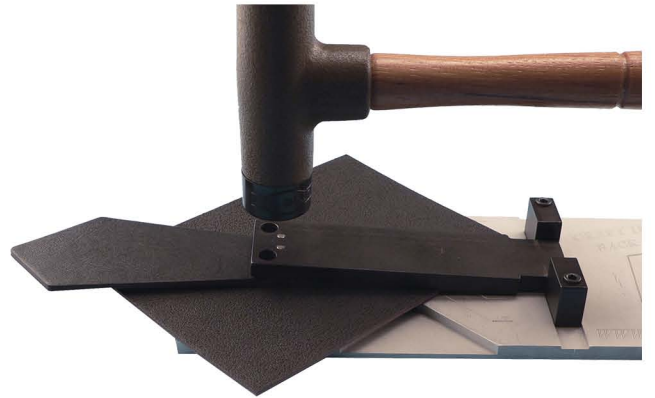

## Step #3

The built in scale allows for flush or up to a 2 1/2" drop. Place the Back in the notch and align the Strut on the desired setting.

## Step #4

Holding the Back and Strut together position over striking area for final assembly. Flip Hinge Applicator Bar and strike with hammer to apply.
