

Easel Backs

With an immeasurable amount of mouldings on the market today only you know what you need. With that in mind we are offering you different options to suit your needs. You can purchase the backs fully assembled in sizes 3 1/2" x 5" - 11" x 14" flush or in a wide assortment of drops. We are also giving you the option of purchasing just the components allowing you to make your own Easel Back to suit your specific needs.

Through the years we have seen an erosion of the photo frame market here in the States as well as across Europe. Specialty framers closing up shop, forcing Quality Back Makers to go out of business. In response to your concerns and needs we put our knowledge and expertise to the test. Having revolutionized the photo frame industry with our patented Easel Hinge we knew what we were looking for in strength and quality. After countless evaluations, material composition, and deflection tests we are confident that our struts are the strongest on the market and of the highest quality.

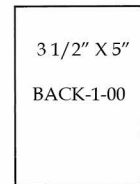

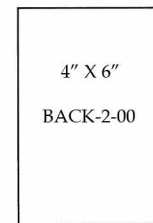

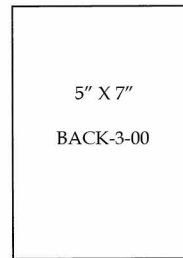

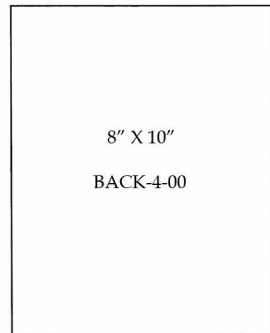

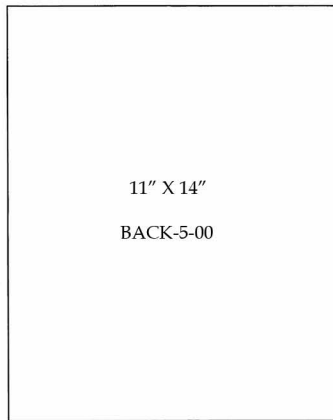

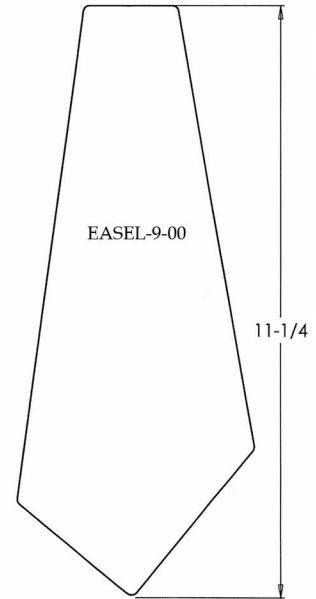

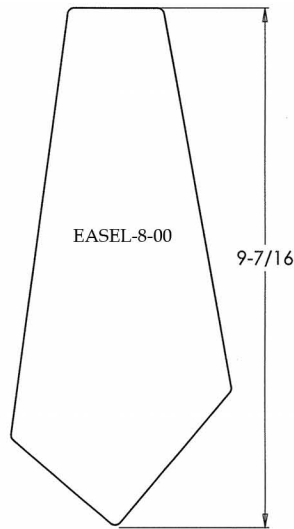

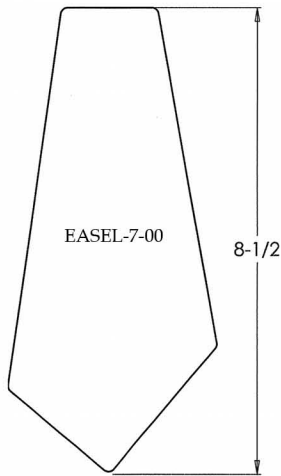

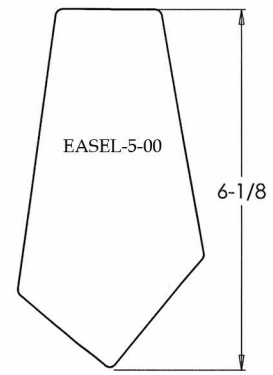

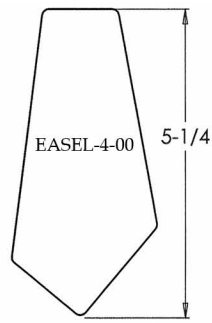

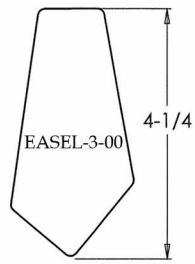

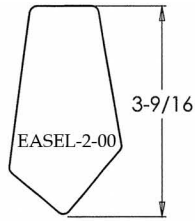

As framers you spend copious amounts of hours and a meticulous hand ensuring that you provide your customers with the best possible product. Craft Inc. shares this philosophy, and with almost 60 years of service has the reputation as well as the experience to back it.
