

MACHINE APPLIED HASPS

Craft Inc. manufactures a variety of machine applied hasps for your wood or paperboard box. We offer a decorative loop closure, which will allow an additional small lock or a simple button snap for a more secure hold.

Craft Inc. manufactures our machine applied hasps with insertion prongs that can easily be applied with our Latch Catch Machine (model LCM-00).

We also offer our line of hasps that can be applied with screws, nails or rivets.
