

THE CHAMP III

Craft, Inc., in a continuing effort to improve its production and manufacturing of the world's finest hardware and machinery, is proud to introduce the all new ChampIII Toggle Press. This machine was developed to install a wide variety of Craft's popular self-fastening hardware, easier and faster than ever before.

The ChampIII toggle press is very user friendly, weighs 50% less than its predecessor, yet still allows the installation of numerous kinds of hardware depending upon the optional accessories being used. Self-fastening hangers are quickly installed with the help of left and right centering guides; easel hinges have a convenient Easel/Back Alignment Guide; self-fastening turnbuttons utilize a simple turn-button head and disk to ensure proper placement. In addition, we've redesigned our packaging to be environmentally safe.

Craft's Champ Machines are the most popular in our ever-growing extensive line of equipment designed to efficiently assist every frame manufacturer in all levels of hardware application. Please call us for more information or to arrange a demonstration.
