

MACHIDA FLEXIBLE ENT SCOPES

BRINGING SOLUTIONS INTO FOCUS.

The first has become the standard by which all other companies have tried to copy. Since their introduction in 1975, Machida flexible ENT scopes have had continual improvements in optical resolution, illumination, and function to keep with today's demands. Available in three sizes, these precision fiberscopes are the ideal addition to any diagnostic armamentarium.

JEDMED is the exclusive distributor and the only authorized service center for Machida flexible ENT scopes. The Machida/JEDMED team will bring you the best service ever!
