Tuesday, January 25th, 2011

A helping hand. I'm Anthony Dias Blue with the Blue Lifestyle Minute sponsored by CUISINART. Have you ever been halfway through a drink and wanted to add more salt or sugar to your glass? While instinct says one must flip a glass over to re-garnish, the handheld, easy to use The Barmaid Drink Rimmer from Lime Tree Cove offers an alternative. The handy plastic gizmo applies a ring of salt or sugar to the rim of a glass, even if you're only halfway through your drink. Simply wet the rim with a fresh slice of fruit and add your desired amount of salt or sugar with the nifty tool. Lime Tree Cove also created cocktail spices designed for different beverages. Apply Tangy Lime Cocktail Salt to your Margarita, or use the Sweet Mint Cocktail Sugar for your Mojito. Visit their website at limetreecove.com for more information.

I'm Anthony Dias Blue sponsored by CUISINART - fine small appliances and cookware. Visit CUISINART.COM and follow me on TWITTER. This is the Blue Lifestyle Minute on WCBS 880.
