[AG Findings](#) Unveils their new line of cases for the Apple iPhone 4. From Left to Right, we have the Vandelay Case which is offered in multiple colors and patterns. This case has a two-piece design that provides the ability to dock the [phone](#) without removing it from the case. It also includes a holster with kickstand. Next we have the bold colored slim and light-weight Beetle case that offers little bulk, but shock absorbing impact protection. Last but not least is the Vent Case which is made of a soft, non-slip silicone to protect your iPhone 4 from everyday damage. The first two cases are priced at \$34.99 and will be available soon. The Vent case is available now for \$16.99.
