No Need to Share Logins or Passwords! Invite Friends & Family to Download the App & Monitor Your Home's Data

# WELCOME!

Congratulations on your new Weather Station and welcome to the La Crosse Technology® family! This quick setup guide will walk you through the basics and introduce you to the new La Crosse View™ app. For our full manual, please visit: [www.lacrossetechnology.com/S84060](http://www.lacrossetechnology.com/S84060) or scan the QR code below.

## WHAT'S IN THE BOX

Color LCD Display

Thermo-Hygro Sensor

Wind & Rain Sensor with Mounting Bracket

QUICK SETUP GUIDE  
AC POWER ADAPTER FOR COLOR DISPLAY

## LET'S GET STARTED STEP 1: POWER UP

Install batteries into your sensors & station in any order.  
Plug the included AC Adapter into an outlet and then into the station.

AC power is required at all times.

**Note:** For detailed instructions on how to power up your station & sensor, please review the full manual.

## HOW DO YOU WANT TO USE YOUR STATION? STEP 2: STATION OPTIONS

**Not Interested in Connecting to La Crosse View™? No Problem!**  
These enhanced features are optional & your weather station will function as a standalone unit without connecting to the app.

### OPTION 1 CONNECT TO LA CROSSE VIEW™

**DOWNLOAD**  
Visit the App Store or Google Play Store to download the free La Crosse View™ app on your mobile device.

**CHECK YOUR NETWORK**  
Confirm that your mobile device is connected to a 2.4GHz Wi-Fi Network before you connect your station

**LAUNCH**  
Open the app on your iOS or Android device.

**FOLLOW INSTRUCTIONS**  
The La Crosse View™ app will walk you through creating an account and automatically sets your time & local forecast.

Make Sure Your Station is Ready to Connect  
When connecting to the app, ensure the Wi-Fi Indicator icon is blinking. If it is not, perform a Wi-Fi search by pressing & holding the + & - buttons together.

### OPTION 2 STANDALONE STATION

**STATION SETUP**  
To enter the setup menu, hold the **SET** button.  
Press and release the - or + buttons to make adjustments.  
Push the **SET** button to confirm.

- SETUP ORDER**
- |                                      |  |   |
|--------------------------------------|--|---|
| <b>1</b><br>Beep (ON/OFF)<br>Minutes | <b>2</b><br>12/24 Hour Time Format<br>Year | <b>3</b><br>Hour<br>Month                     |
| <b>4</b><br>Date                     | <b>5</b><br>Temperature (°F/°C)            | <b>6</b><br>Wind Direction Degrees or Letters |
| <b>7</b><br>Wind Speed MPH   KMH     | <b>8</b><br>Rainfall Inch   MM             | <b>9</b><br>Wind Direction Prompt*            |
| <b>10</b>                            | <b>11</b>                                  | <b>12</b>                                     |

\*Note: This prompt is a reminder that the app is necessary to connect (optional).

**CAN I CONNECT LATER?**  
Of course! You can always connect your station to the app. See the full manual for more details.

## GET THE MOST ACCURATE READINGS POSSIBLE STEP 3: MOUNTING BASICS

At this time, all of your sensor information should be displayed on your station. Here are a few quick tips for mounting your sensors:

- THERMO-HYGRO**  
Keep out of direct sunlight & ensure the sensor is well-ventilated.  
  
We recommend mounting under a deck or eave facing north.
- MULTI-SENSOR**  
Position in an open area that will have the least amount of interference with wind speed & wind direction.  
  
For accurate Wind Direction readings please mount it with the solar panel facing south.

Note: For detailed mounting instructions, please review the full manual.

## STATION OVERVIEW IMPORTANT ICONS & HELPFUL TIPS

- Wi-Fi INDICATOR\***  
This icon measures your Wi-Fi connection strength
  - LCD ICONS**  
**LOW BATTERY**  
Individual station/sensor indicators let you know which batteries to replace
  - SENSOR CONNECTION**  
The bars let you know the station & sensors are connected
- \*Only When Connected

**NOTE:** Basic button functions are printed on the back of the station.

- WI-FI SEARCH**  
Press and hold the + & - buttons together to look for the Wi-Fi Signal.
- FACTORY RESET**  
Press and hold **ALERTS & LIGHT** buttons together to start over

## CONNECTING YOUR STATION TO YOUR WI-FI NETWORK HOW IT WORKS

### DURING SETUP

Your mobile device is used to establish the connection between your Wi-Fi network and the weather station.

### AFTER SETUP

After your weather station is connected, you may choose a different Wi-Fi frequency or network for your phone.

**MAKE SURE YOUR STATION IS READY TO CONNECT**  
When connecting to the app, ensure the Wi-Fi Indicator icon is blinking. If it is not, perform a Wi-Fi search by pressing & holding the + & - buttons together.

### WI-FI NETWORK REQUIREMENTS

- **Broadcast Frequency:** 2.4GHz (802.11 b/g/n)
  - **Network Name/Password:** Must Not Exceed 45 Characters
  - **Network Speed:** Must Be Greater than 1 Mbps
- Note:** If you have a multiple band router, be sure your mobile device is connected to the 2.4 GHz frequency when setting up the app.

### iOS REQUIREMENTS

- iOS 9.0 or higher with cellular or Wi-Fi service

### ANDROID REQUIREMENTS

- Android OS 5.0 or higher with cellular or Wi-Fi service

## FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase separation between equipment & receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

#### Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.

All rights reserved. This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions.

We disclaim any responsibility for any technical error or printing error, or their consequences.

All trademarks and patents are recognized.

## CANADA STATEMENT

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
