- Overall Dimensions: PANEL SIZE: 48" Wide X 84" High: Width: 172" | Depth: 55" | Height: 90"

CUSTOM OPTIONS

PANEL SEPARATORS :
Select a roller separator length which provides proper spacing between swinging panels so that merchandise displayed on adjacent panels does not touch when the panels are turned.

Fixed Pivot Spacing refers to the amount of space the panels need to be apart on the floor bracket for the panel separators to work properly.

1" Panel Separator (2" Fixed Pivot Spacing)

2 1/4" Panel Separato (4" Fixed Pivot Spacing)

3 5/8" Panel Separato (6" Fixed Pivot Spacing)

5 1/2" Panel Separato (8" Fixed Pivot Spacing)

6 5/8" Panel Separator (10" Fixed Pivot Spacing)

NYLON PEGBOARD HOOKS:
Specially designed for use with our pegboard panels, our 1/8" nylon pegboard hooks are ideal for lightweight items, such as card-backed packaging. They feature the same smart, flattened design as our steel pegboard hooks, enabling you to hang items close to the panel's surface. Package of 100 is included.

STEEL PEGBOARD HOOKS:
Specially designed for use with our pegboard panels, these 1/8" steel pegboard hooks are flattened so merchandise hangs close to the display surface. Perfect for heavier items, including framed art, mirrors and other three-dimensional merchandise. Package of 100 is included.
