Welcome to our new catalogue. We hope you enjoy it as much as we did when pulling it together. We've found some fabulous new makers - both at home and abroad. From the Amish in Ohio to a family of felters in Nepal, we have many exciting new designs. And everything has been designed and sourced with our guiding principal of simple, sustainable, style.

This time we've also introduced three new sections: upholstery, holiday and gift. We love the holidays and the season of giving so much that we thought they deserved their own sections.

RONDA COLLECTION

Ronda is a small town in southern Spain, famous for its blend of Moorish and Castilian architecture. This series of dinnerware was inspired by the beautiful shapes found there. Southern Mediterranean in feel, this collection is perfect for virtually any setting. Offered in three complementary colours, we favour the China Blue for the beach, the Matte White for the country and the Glossy Grey for the city - or simply mix the series for a wonderfully eclectic effect.

THE STOUR COLLECTION

The Stour is a river whose source is in Wiltshire, England. This series of dinnerware was inspired by the river's bends and its beautiful surroundings.

Every piece is hand-made, while emphasizing the organic shapes, making them simultaneously elegant and informal. Offered in two complementary colours, we love to mix the sets when serving a dinner party.
