Welcome to *Canvas*, a new collection of ceramics, wooden objects, textiles, accessories and furniture for the home created by artisans and craftsmen from the US and abroad.

Canvas is a journey around the globe that combines natural materials with interesting textures. Unstructured, soft shapes and subtle colours define a look that is understated yet elegant.

With a continued pursuit of products made under fair trade and green principles, we aim for a collection that represents simple, sustainable style.

THE STOUR COLLECTION

The Stour is a river whose source is in Wiltshire, England. This series of dinnerware was inspired by the river and it's beautiful surroundings.

Every piece is hand-made, while emphasizing the organic shapes, making them simultaneously elegant and informal. Offered in three complimentary colors, we love to mix the sets when serving a dinner party.
