### Ballistic HC

OtterBox claims you won't find a tougher case than the OtterBox Defender Series for iPhone 4. But a company called Ballistic is saying its [HC case](#)--the HC stands for Hard Core--is "better" than OtterBox's, offering four layers of protection instead of OtterBox's two.

Like the Otterbox, there's an integrated screen cover along with a holster/belt-clip that provides increased screen protection (you face the screen into the holster). This one's been so popular the company has had trouble keeping it in stock.

Price: \$49.99
