1/2" Rope Grab

[Previous](#)

PART NO. 300RG-1200

Features:

Patented (5,156,240) self-trailing rope grabs provide fall protection for workers ascending or descending a vertical lifeline. Advanced technology design enables the rope grab to automatically lock in place in case of a fall while absorbing much of the generated energy. Our automatic and manual rope grabs can be easily attached, detached, and repositioned at any point on a vertical lifeline. Rope grabs are used with a back D-ring style full body harness and up to 3 ft. shock absorbing lanyard as part of a complete personal fall protection system.

Product Specs:

- Self trailing operation
- Energy absorbing
- Minimal rope wear in normal operation
- In event of a fall, arrest will not damage or cut rope
- Removable grabs can be attached to any point on the lifeline
- Durable, light weight stainless steel construction

Model RG-1200 (patented) to be used on 1/2" diameter Kernmantle polyester ropes:
