

Short SJ1 only if some units need pin 3 to GND for 3.3V operation

Remove R1 for lower power operation without LED

Humidity / Temperature Sensor Module

SKU: HUMID

V1.0 (2011-09-29)

www.freertronics.com/humid

(C)2011 Freertronics Pty Ltd: www.freertronics.com

Released under the TAPR Open Hardware License: www.tapr.org/ohl

Supply voltage: 5Vdc

Max sensor current 2.5mA during reads

LED current 1.8mA
