

## ACNE CARE

Use to control any problem from oily skin to advanced, cystic acne. We offer **13 products including 7 OTC Drugs** (medicine that does not require a prescription). The products contain agents of varying degrees to help assist in cleansing and controlling the body's supply of oils at the surface of the skin as well as being able to kill Propioni bacteria dead in its tracks as well as improve acne scarring.

Acne made simple. Commonly known as blackheads, blemishes, comedones, milia, pimples and whiteheads. There are many forms of acne that can be caused by numerous elements, including hormones, stress, diet, drugs, bacteria and some products, including cosmetics that you use on your body and face. Acne can appear almost anywhere on your body.

Oils (sebum) composed of fat and debris are produced and secreted from the sebaceous glands. When you have too much oil on top of dead cells, the glands and pores can get clogged. Propioni bacteria begin to grow and acne appears.

Acne sufferers include children, teens and adults with no differentiation between male and female. It is prevalent in African American, Hispanic, Asian and Caucasian skin. As you grow older your glands will change and secretions begin to diminish. Over a number of years, it is common for men and women alike to see a change in their skin, from oily to combination, to normal, and to dry.

Acne can lead to other problems including lesions or permanent scarring. Understanding your skin and what will work to improve its appearance is important in good skin care. You can help your acne with over-the-counter topical products. However, your acne may require professional treatment from a dermatologist.

### GUIDELINES FOR USING ACNE PRODUCTS

- Learn to work with your skin. You do not want to scrub your skin nor do you want to completely dry it. This will cause the glands to overreact and produce more oils. If your skin becomes too dry, reduce the usage of an item, or two, until you can detect a change.
- Some of the better ingredients that will offer assistance include Benzoyl Peroxide, Glycolic Acid, Oatmeal, Lavender, Salicylic Acid, and Sulfur.
- There is no rhyme or reason to what you will find in drug stores, cosmetic counters, discount operations, beauty supply stores with regard to quality or price. Look at the ingredients and the order in which they appear. This listing will signify the content of ingredients from the most to the least. OTC drugs will be labeled as DRUG FACTS on the information panel.

Do not rely on one product. Use a variety of items to help combat the problem. This could include a drying agent, AHA / Glycolic Acid, Salicylic acid, anti-bacterial cleansers (non-alcohol based) and a facial mask. Start with a few and gradually add products to your regimen.

## PRODUCT MIX

### CLEANSERS

**B-KLEERT™ ANTISEPTIC ACNE WASH (OTC Drug):** A gentle acne cleanser with an active cleansing agent to help kill 99.9% of Propioni bacteria on contact. Also kills 15 additional bacteria including Staph, Pseudomonas and E.coli as well as fungi and mold. SEE CLEANSER Section for specifications

**B-PROX 2.5% and B-PROX 10% CLEANSING LOTION (OTC Drug):** Antibacterial cleansers with Benzoyl Peroxide. Perfect for oily to acne-prone skin. 2.5% for sensitive skin and 10% for tough problems. Kills 95% of Propioni bacteria within 20 seconds. SEE CLEANSER Section for specifications.

## **TREATMENTS / OILY TO MILD (GRADE 1)**

**B-KLEER™ ULTRA 8 SKIN THERAPY** (formerly Ultra 8 Clear Skin Therapy): An 8% AHA / Glycolic Acid that treats acne pustules and penetrates to cleanse the pores. Removes oil and dirt. Can be worn under makeup. pH 4.0, non-buffered.

**B-KLEER™ ULTRA 8 PADS:** Perfect for start-up problems to mild acne. Same solution as the B-Kleer Ultra 8 Skin Therapy but in easy, simple to use disposable pads. pH 4.0, non-buffered.

**B-KLEER™ LOTION 10:** A light and elegant lotion base that fights acne pustules and cleanses pores. Improves exfoliation, discoloration and acne scarring. Perfect with makeup. pH 3.7, non-buffered.

## **TREATMENTS / MILD TO MODERATE**

**The following are listed in order from weakest to strongest:**

**B-KLEER™ LOTION 15:** A light and elegant lotion base that fights acne pustules and cleanses pores. Improves exfoliation, discoloration and acne scarring. Perfect with makeup. Use as a step up from the 10% lotion. pH 3.9, non-buffered.

**B-KLEER™ B P 2.5 ACNE CRÈME** (OTC Drug): Antibacterial treatment to help control and moderate Acne and Acne pustules. Can be worn day and night. pH 3.5. Works well with make-up. Will not dry the skin or cause it to flake.

## **TREATMENTS / MODERATE TO ADVANCED**

**The following are listed in order from weakest to strongest:**

**B-KLEER™ ULTRA ACNE LOTION** (OTC Drug): Maximum-Strength Acne treatment in a gel base. A fast-acting AHA / BHA Cocktail that overpowers stubborn zits as it loosens dirt and oil and keeps the pores clean. Gently exfoliates without over-drying. Improves tone and texture. Anti-bacterial. Recommended for women. Works extremely well with makeup.

**B-KLEER™ ULTRA ACNE GEL** (OTC Drug): Maximum-Strength Acne treatment in a gel base. A fast-acting AHA / BHA Cocktail that overpowers stubborn zits as it loosens dirt and oil and keeps the pores clean. Gently exfoliates without over-drying. Improves tone and texture. Recommended for men, athletes. Does not work well with make-up.

**B-KLEER™ ULTRA 20 PADS:** Excellent product for moderate to advanced acne. Easy, simple to use disposable pads. Excellent for athletes or young teens with stubborn acne

## **FACE MASKS**

**CLAY MINT MASK:** Removes blackheads and absorbs excess oil with two types of clay, Kaolin and Bentonite. Fights bacteria as it adds freshness and soothing properties to the skin. SEE FACIAL MASK Section for specifications.

**B-KLEER™ MASK** (OTC Drug): Controls moderate to severe acne. Goes deep into the pores to attack acne pustules. Dries pimples and cleanses the pores at the root of the acne problem. Contains Camphor, Sulfur and an antiseptic medication. SEE FACIAL MASK Section for specifications.

## **KITS**

Three distinct kits offer an excellent proven program to help treat acne-prone skin. Each kit contains an antibacterial cleanser, acne treatment, mask and sunscreen. Designed for Oily Skin to Mild Acne, Moderate Acne, or Advanced Acne.

**PROTOCOL / BEGINNER:** Please use this product sequence as your **CORE PROGRAM**

PRODUCT	STEP	DAY		NIGHT	NOTE
CLEANSER	1	X	AND	X	YOU MAY USE 2 OR EVEN 3 DIFFERENT CLEANSERS; MUST USE ANTI-BACTERIAL

**NOTES:**

1-Will not help fight bacteria but works well on sensitive skin and controls oiliness.

2-Will not help fight bacteria but works well on sensitive skin.

3-Use only for dry patches that may be caused by acne medications, especially Accutane®.

Product Information - Acne

Page 6

4-Should not be used on anyone with moderate to severe acne problems unless it is under control with medications.

## **B-KLEER™ ANTISEPTIC ACNE WASH**

### **OVER THE COUNTER (OTC) DRUG**

*B-Kleer™ meets the FDA Monograph for Topical Antimicrobial Drug Products for OTC Human Use.  
B-Kleer™ meets the FDA Monograph for Class I First Aid Treatment as an Antiseptic Wash.*

### **INDICATIONS**

- ♦ To promote cleanliness by allowing regular and continuous cleansing without drying the skin.
- ♦ To kill germs (E.coli, Pseudomonas, and Staph), which cause infection.
- ♦ To kill germs (Propionibacterium), which are prevalent in acne conditions.

### **KEY FEATURES**

- ♦ B-Kleer™ is manufactured in accordance with manufacturing practices for DRUGS.
- ♦ B-Kleer™ kills 99.99% of harmful germs, including E.coli, Pseudomonas, and Staph, on contact.
- ♦ B-Kleer™ kills 99.0% of P-bacteria (propionibacterium found in acne) on contact.
- ♦ Eliminates bacterial contamination.
- ♦ Eliminates fungal contamination.
- ♦ Broad-spectrum Antimicrobial action, encompassing Gram-Negative, Gram-Positive, Fungi, Yeast and Acid Fast Bacteria.
- ♦ Benzethonium Chloride disrupts bacterial growth and forces it to destroy itself.
- ♦ A water-soluble formulation improves the permeability of agents into the skin. This action causes improved efficacy to kill bacteria within the skin and to remove debris.
- ♦ Offers immediate sanitation. No waiting for active ingredients to become effective.
- ♦ This cleanser is non-drying.
- ♦ B-Kleer™ is an alcohol-free product. This offers critical benefits since alcohol-based antiseptic cleansers indicate added risk of potentially flammable solution in a wound site.
- ♦ Leaves no residue or sticky after-effect.
- ♦ Skin conditioning and healing agents to moisturize and leave your hands feeling smooth and soft.
- ♦ Designed for continuous use.
- ♦ Recommended for post-operative care.

### **DIRECTIONS**

- ♦ Wet hands.
- ♦ Place a small amount of B-Kleer™ into your hands and work into lather.
- ♦ Apply lather on areas to be treated with a gentle, circular motion.
- ♦ Rinse clean.
- ♦ Use as often as necessary.

### **CAUTION**

- ♦ External use only.
- ♦ Do not use in eyes.
- ♦ In case of deep wounds or puncture wounds, consult a physician.
- ♦ If irritation develops and persists for more than a few days, discontinue use and consult a physician.
- ♦ Do not leave on skin for more than one minute without rinsing.

**INGREDIENTS:** Active: Benzethonium Chloride (0.20%). Other Ingredients: Purified Water, Ammonium Lauryl Sulfate, Disodium Laureth Sulfosuccinate, Ammonium Chloride, Sodium Chloride, Lauric Diethanolamide, Propylene Glycol, Diazolidinyl Urea, Methylparaben, Propylparaben, Citric Acid.

## SKIN TYPE

This can be used on all skin types.

B-Kleer™ may be used on open wounds.

## SKIN TYPE / TREATMENT USE RATE

SKIN TYPE	Sensitive	Dry / Mature	Normal	Combination	Oily	Acne
Usage	Yes	Yes	Yes	Yes	Yes	Yes
Face	One pea size drop per application for the face. Twice daily = 60 days for the 8-ounce bottle.

## **BENZOYL PEROXIDE LOTION 2.5%**

### **OVER THE COUNTER (OTC) DRUG**

#### **INDICATIONS**

- ◆ Topical treatment for sensitive to normal skin that has oily to acne-prone conditions.
- ◆ To dry skin and cause exfoliation with a potent comedonal agent.

#### **KEY FEATURES**

- ◆ 2.5% Benzoyl Peroxide in a lotion.
- ◆ Water base to pleasantly cleanse.
- ◆ Leaves no greasy feeling.
- ◆ Removes excess oils that build up in acne-prone skin.
- ◆ Helps to dry the skin at the surface.
- ◆ Regular use will help to control acne.
- ◆ Use when you shower and at bedtime, if necessary.
- ◆ Kills bacteria on contact.

#### **DIRECTIONS**

- ◆ Shake well.
- ◆ On the first day, test a small area to check for irritation.
- ◆ Wet areas to be treated with warm water before using.
- ◆ Use an amount sufficient to work up lather.
- ◆ Cleanse lightly in a circular motion.
- ◆ Wash affected areas once a day and gradually increase to twice daily.
- ◆ Do not leave on for more than 1 minute.
- ◆ Rinse well.

#### **CAUTION**

- ◆ For external use only.
- ◆ Avoid contact with eyes, mucous membranes, lips and delicate neck area.
- ◆ Keep out of reach of small children.
- ◆ If irritation develops, discontinue use.
- ◆ Will bleach dyed fabrics. Rinse well.
- ◆ May bleach hair.
- ◆ **Do not** use if pregnant or breast feeding unless directed by a physician.
- ◆ Do not use along with other drying agents or scrubs simultaneously. Do not use with superfatted or medicated soaps that may cause additional drying.
- ◆ Keep away from heat.

**INGREDIENTS:** Active: Benzoyl Peroxide 2.5%; Deionized Water, Ammonium Lauryl Sulfate, Cocoamphocarboxyglicinate, Carbomer 940, Propylene Glycol, Sodium Hydroxide, Polysorbate 20, Methylparaben, Fragrance.

## QUESTIONS AND ANSWERS

- Q.** Can Benzoyl Peroxide be irritating?
- A.** Yes, Benzoyl Peroxide is an irritant. It can cause drying and peeling; along with mild redness and possible swelling if left on too long.
- Q.** How do I know what an adverse reaction is?
- A.** Benzoyl Peroxide can also cause a brief tingling sensation or a warm feeling. If this feeling lasts for more than 5 minutes, do not leave on as long the next time you use it (we recommend that you wait a day before trying again). If the situation does not improve, discontinue use.

If the redness become excessive or causes severe swelling, discontinue use and consult a physician (dermatologist).

- Q.** If I find this to be too irritating, what should I do?
- A.** If you still have it on, wash off with cool water immediately. It should not be left on for more than 2 minutes. If your condition appears severe, apply a cold compress and an emollient such as petrolatum (Vaseline®).

**NOTE:** Vaseline® is a registered trademark of Chesebrough-Ponds USA Co.

**Directions:** If going outside, use a sunscreen. Allow B-Prox to dry, then follow directions in the sunscreen labeling. If irritation or sensitivity develops, discontinue use of both products and consult a doctor. Shake well. First, test a small area for irritation. Wet areas to be treated before using. Work up lather. Wash affected areas once daily, gradually increase to twice daily. Rinse well within 30 seconds.

**Inactive Ingredients:** Deionized Water, Carbopol 940, Sodium C14-16 Olefin Sulfonate, and Sodium Hydroxide.

**Other Information:** Benzoyl Peroxide is a known irritant to the skin.

## B-KLEER 8 SKIN THERAPY (formerly Ultra 8 Clear Skin Therapy)

### INDICATIONS

- ♦ To remove the oils, fats and other lipids present in oily and acne-prone skin, while it exfoliates surface acne.
- ♦ To improve the softness and texture of the skin.

### KEY FEATURES

- ♦ Remarkably efficient for deep pore cleansing.
- ♦ Concentration of Glycolic Acid is 8%.
- ♦ Do not use an astringent with alcohol when using this product. It may be too drying.
- ♦ Must wear a sunscreen daily (see user instructions).
- ♦ Will help to dry the pores that contain sebum.
- ♦ Will cause the skin to exfoliate helping the acne healing process.
- ♦ May be used numerous times daily.
- ♦ Can be used over Ultra 10 Lightening Gel.

### DIRECTIONS

- ♦ Cleanse the face with Neutral Cleansing Bar, B-Kleer™ Antiseptic Wash, B-Prox 2.5%, or B-Prox 10% Cleansing Lotion
- ♦ Pat dry lightly and wait 5 minutes.
- ♦ Apply Ultra 8 Clear Skin Therapy to a cotton ball or pad.
- ♦ Wipe pad lightly across all affected areas. Use twice daily.
- ♦ Allow to dry for 5 minutes.
- ♦ Apply sunscreen daily. Sunscreen should be applied at least 30 minutes prior to getting into sunlight for optimum effect.
- ♦ Do not over-apply and do not over-use.

### CAUTION

- ♦ For external use only.
- ♦ **STOP USAGE IF PREGNANT OR BREASTFEEDING.**
- ♦ Keep out of reach of small children.
- ♦ Avoid contact with eyes and mucous membranes.
- ♦ A mild transient tingling may occur for a few minutes in people with sensitive skin. This is normal.
- ♦ You may see a mild acne outbreak in the first few days. This is normal. It is bringing impurities to the surface and beginning to cleanse the pores.
- ♦ If irritation develops and continues, discontinue use.
- ♦ **Do not use an alcohol-based astringent when using this product. It may be too drying.**

**INGREDIENTS:** Water, SD Alcohol 40, Glycolic Acid, Propylene Glycol, Ammonium Glycolate, Chlorhexadine Digluconate, Polyquartermium-10, Polysorbate-20.

## B-KLEER™ ULTRA 8 PADS

### INDICATIONS

- ◆ To remove the oils, fats and other lipids present in oily and acne-prone skin, while it exfoliates surface acne.
- ◆ To improve the softness and texture of the skin.

### KEY FEATURES

- ◆ Remarkably efficient for deep pore cleansing.
- ◆ Easy, simple to use disposable pads.
- ◆ Perfect for start-up problems to mild acne.
- ◆ Glycolic Acid stimulates collagen and fibril tissue and has been clinically proven to improve acne scarring.
- ◆ Concentration of 8% Glycolic Acid.
- ◆ Will help to dry the pores that contain sebum.
- ◆ Will cause the skin to exfoliate thus helping the acne healing process.
- ◆ Use twice daily.
- ◆ Use both sides of the pad for optimum coverage.
- ◆ Can be used over Ultra 10 Lightening Gel.

### DIRECTIONS

- ◆ For best results, cleanse the face or affected area first with a neutral cleansing bar, B-Kleer™ Antiseptic Wash, B-Prox 2.5%, or B-Prox 10% Cleansing Lotion. If this is not possible, you may simplify the routine by only using the B-Kleer™ Ultra 8 pad.
- ◆ Wipe pad lightly across all affected areas. Use twice daily.
- ◆ Allow to dry for 5 minutes.
- ◆ Apply sunscreen daily for maximum protection. Sunscreen should be applied at least 30 minutes prior to getting into sunlight for optimum effect.
- ◆ Do not over-apply and do not over-use.

### CAUTION

- ◆ For external use only.
- ◆ Keep out of reach of small children.
- ◆ Avoid contact with eyes and mucous membranes.
- ◆ A mild transient tingling may occur for a few minutes in people with sensitive skin. This is normal.
- ◆ You may see a mild acne outbreak in the first few days. This is normal. It is bringing impurities to the surface and beginning to cleanse the pores.
- ◆ If irritation develops and continues, discontinue use.
- ◆ We highly recommend the daily use of a broad-spectrum sunscreen with this product (see user instructions).
- ◆ **Do not use an alcohol-based astringent when using this product. It may be too drying.**
- ◆ **Do not use if you are on Accutane® or for six months following Accutane® treatments.**

**INGREDIENTS:** Water, SD Alcohol 40, Glycolic Acid, Propylene Glycol, Ammonium Glycolate, Tetrasodium EDTA

## B-KLEER™ B P 2.5 ACNE CREME OVER THE COUNTER (OTC) DRUG

An antibacterial treatment to help control and moderate Acne and Acne pustules.

### INDICATIONS

- For the antibacterial treatment for all grades of Acne.
- Formulated to kill bacteria, dry Acne pustules, cleanse pores, remove excess oils and slough dead cells. Exfoliation will loosen impacted pores.
- To disinfect and control bacteria to keep Acne under control.

### KEY FEATURES

- Over-the-Counter (OTC) Medicated Drug.
- Dries Acne blemishes, Acne pimples, blackheads and whiteheads.
- Aloe Vera Gel keeps the skin calm and minimizes irritation.
- Works well with makeup.
- Light and elegant.
- May use 24/7.

### DIRECTIONS

- Shake well before using.
- Start with one application daily, preferably at bedtime. Allow two weeks for the skin to become accustomed to this product. Then, gradually increase to twice daily if needed or as directed by a dermatologist.
- Cleanse the skin thoroughly with B-Kleer™ Wash before applying B-Kleer™ B P 2.5 Acne Creme.
- Apply a pea size drop to each side of the face and the forehead.
- Gently cover the entire affected areas with a thin layer. This will keep Acne from flaring.
- Do not rub the product into the skin.
- If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
- Leave on all day or overnight for maximum effectiveness. If using at least twice a day, rinse face and cleanse prior to reapplying.
- Daytime: Same as bedtime with the addition of sunscreen. Allow B-Kleer™ B P 2.5 Acne Creme to dry. Apply sunscreen to protect the skin from ultra violet radiation damage and the risk of photosensitivity.
- **Sensitivity test for New Users:** Apply product sparingly to one or two small affected areas during the first three days. If no discomfort occurs, follow the directions above.

### CAUTION

- Keep out of the reach of small children.
- For external use only.
- In case of accidental ingestion, contact a poison control center immediately.
- Avoid contact with eyes and mucous membranes.
- Using other topical Acne medications at the same time or immediately following use of this product may increase dryness, or irritation of the skin. If this occurs, only one medication should be used unless otherwise directed by a dermatologist.
- When using the product during the day, avoid unnecessary sun exposure and use a high-quality broad-spectrum sunscreen.
- If irritation or sensitivity develops, discontinue use of this product for three days and try again. If irritation persists, consult a dermatologist.
- **PREGNANT OR BREASTFEEDING:** Consult a dermatologist or your Ob/Gyn prior to use. This formulation should not pose a medical threat but can be irritating to the skin.
- May bleach fabrics.

### Special Notes

- **DO NOT USE** if on Accutane®. You must be off Accutane® for at least six months before you can begin to use this product should symptoms still exist.
- **WE DO NOT RECOMMEND** use of this product as A SPOT TREATMENT. Acne can spread easily. By stopping a blemish and not treating the surrounding area(s), new blemishes can appear.

## INGREDIENTS

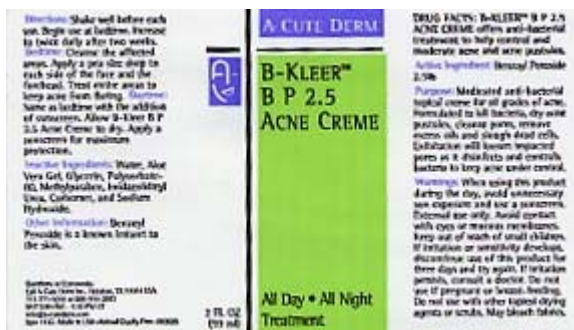

Active: Benzoyl Peroxide 2.5%. Other Ingredients: Water, Aloe Vera Gel, Glycerine, Polysorbate 80, Methylparaben, Imidazolidinyl Urea, Carbomer, and Sodium Hydroxide.

## B-KLEER™ LOTION 10

### INDICATIONS

- ◆ Use for mild to moderate acne
- ◆ Gently exfoliates encrustation and acne pustules.
- ◆ Penetrate pores to eliminate most acne pimples.
- ◆ Reduces the severity of acne blemishes.
- ◆ Help prevent new acne blemishes from forming.
- ◆ Controls oiliness
- ◆ Loosen dirt and oils in trapped pores.

### KEY FEATURES

- ◆ Powerful exfoliating and stimulating properties of Glycolic Acid.
- ◆ 10% Glycolic Acid (AHA) for exfoliation, deep pore cleansing and to improve skin tone and texture.
- ◆ Excellent for day and night use.
- ◆ Creates rapid exfoliation of acne pustules.
- ◆ Should show improved skin within three to four weeks.
- ◆ Improves tone and texture.
- ◆ Will not dry the skin if used as prescribed.
- ◆ Works well under makeup.

### DIRECTIONS

- ◆ Cleanse the face with B-Kleer™ Antiseptic Wash, B-Prox 2.5%, or B-Prox 10% Cleansing Lotion.
- ◆ Pat skin dry.
- ◆ Lightly and evenly cover the affected area.
- ◆ Do not over-apply. Pat excess with tissue.
- ◆ Start with 1 application daily and then gradually increase to 2-3 times daily if needed or as directed by a physician.
- ◆ If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

### CAUTION

- ◆ For external uses only.
- ◆ Do not apply to open skin.
- ◆ Keep out of reach of small children.
- ◆ Not recommended for use during pregnancy.
- ◆ Do not use while on Accutane®.
- ◆ Avoid direct contact with eyes and mucous membranes.
- ◆ Mild or transient tingling may occur if you have sensitive skin.
- ◆ If you wear contact lenses, wash hands thoroughly prior to touching lenses.
- ◆ If irritation develops, discontinue use.
- ◆ Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.

**INGREDIENTS:** Water, Glycolic Acid, Propylene Glycol, Ammonium Hydroxide, Hydroxyethylcellulose, Isopropyl Palmitate, PEG-40 Stearate, Stearic Acid, Cetyl Alcohol, Magnesium Aluminum Silicate, Sorbitan Stearate, Cholesterol, Glyceryl Stearate, PEG-100 Stearate, Stearamidopropyl Dimethylamine, Dimethicone, Isostearic Acid, Petrolatum, Tetrasodium EDTA.

### SKIN TYPE / TREATMENT USE RATE

SKIN TYPE	Sensitive	Dry / Mature	Normal	Combination	Oily	Acne

Face	1 drop the size of a green pea for each side of the face and forehead, twice daily = 2 month supply					

#### ITEM / PACKAGE DETAILS

SIZES	ITEM	UPC	BOTTLE:	PH	SHELF LIFE
1.0 oz. / 30 ml.	1101	7 54405	Pump, Lucite, matte silver pump	3.27	30 months

#### QUESTIONS AND ANSWERS

- Q.** Can I use this with an alcohol-based astringent?
- A.** No, we do recommend alcohol-based astringents. They are too drying to the skin and cause additional oils to be secreted. The use of AHA/Glycolic Acid will help keep this under control. BHA (Salicylic Acid) products are also irritants and can cause some dryness. There is no reason to cause or create more dryness than necessary. New alcohol-free astringents or toners will give you much greater relief.
- Q.** Can this product be used over the entire face?
- A.** Yes, as well as other body parts. However, you should use this as a spot treatment due to the concentration of acne-fighting ingredients. This will work very well in conjunction with our Ultra 8 Kleer Skin Therapy or Ultra 15 Rejuvenating Gel, which would be applied over the entire face after B-Kleer™ Gel.
- Q.** Can I use a skin lightening agent with this product?
- A.** Yes, however, we highly recommend that you allow at least six months of regular daily use of a Glycolic Acid and / or Beta Hydroxy Acid product to take its full effect before using any skin lightening agent. These products will inherently lighten discoloration so you may not need bleaching agents, at all. If you do need one, it should only be for spot treatment and for a relatively short period of time (not more than 3 months as recommended by the FDA).
- Q.** I have been on Accutane® but I had a little flare-up. Can I use this product?
- A.** Only if you have been off Accutane® for at least six months. Accutane® remains in the body for months. The two products can be overly irritating when used simultaneously.

## B-KLEER™ LOTION 15

### INDICATIONS

- ◆ Use for moderate to advanced acne
- ◆ Gently exfoliates encrustation and acne pustules.
- ◆ Penetrate pores to eliminate most acne pimples.
- ◆ Reduces the severity of acne blemishes.
- ◆ Help prevent new acne blemishes from forming.
- ◆ Controls oiliness
- ◆ Loosen dirt and oils in trapped pores.

### KEY FEATURES

- ◆ Powerful exfoliating and stimulating properties of Glycolic Acid.
- ◆ 15% Glycolic Acid (AHA) for exfoliation, deep pore cleansing and to improve skin tone and texture.
- ◆ Excellent for day and night use.
- ◆ Creates rapid exfoliation of acne pustules.
- ◆ Should show improved skin within three to four weeks.
- ◆ Improves tone and texture.
- ◆ Will not dry the skin if used as prescribed.
- ◆ Works well with makeup.

### DIRECTIONS

- ◆ Cleanse the face with B-Kleer™ Antiseptic Wash, B-Prox 2.5%, or B-Prox 10% Cleansing Lotion.
- ◆ Pat skin dry.
- ◆ Lightly and evenly cover the affected area.
- ◆ Do not over-apply. Pat excess with tissue.
- ◆ Start with 1 application daily and then gradually increase to 2-3 times daily if needed or as directed by a physician.
- ◆ If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

### CAUTION

- ◆ For external uses only.
- ◆ Do not apply to open skin.
- ◆ Keep out of reach of small children.
- ◆ Not recommended for use during pregnancy.
- ◆ Do not use while on Accutane®.
- ◆ Avoid direct contact with eyes and mucous membranes.
- ◆ Mild or transient tingling may occur if you have sensitive skin.
- ◆ If you wear contact lenses, wash hands thoroughly prior to touching lenses.
- ◆ If irritation develops, discontinue use.
- ◆ Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.

**INGREDIENTS:** Water, Glycolic Acid, Isopropyl Palmitate, Ammonium Glycolate, Propylene Glycol, BIS-Diglyceryl Caprylate/Caprate/Isostearate/Stearate/Hydroxy Stearate Adipate, Cetyl Alcohol, Isostearic Acid, DEA Cetyl Phosphate, Sorbitan Stearate, Dimethicone, Sodium Hyaluronate, Hydroxyethylcellulose, Stearamidopropyl Dimethylamine, Xanthun Gum, Tetrasodium EDTA.

#### QUESTIONS AND ANSWERS

Q: Can I start with this product?

- A. No, this product can be too irritating for your skin. Start with the B-Kleer Lotion 10. It will take your skin at least 6 months and up to a year of continuous use before it can handle the 15% lotion.

Q: Can I use this with an alcohol-based astringent?

- A. No, we do recommend alcohol-based astringents. They are too drying to the skin and cause additional oils to be secreted. The use of AHA/Glycolic Acid will help keep this under control. BHA (Salicylic Acid) products are also irritants and can cause some dryness. There is no reason to cause or create more dryness than necessary. New alcohol-free astringents or toners will give you much greater relief.

Q. Can this product be used over the entire face?

- A. Yes, as well as other body parts. However, you should use this as a spot treatment due to the concentration of acne-fighting ingredients. This will work very well in conjunction with our Ultra 8 Kleer Skin Therapy or Ultra 15 Rejuvenating Gel, which would be applied over the entire face after B-Kleer™ Gel.

Q. Can I use a skin lightening agent with this product?

- A. Yes, however, we highly recommend that you allow at least six months of regular daily use of a Glycolic Acid and / or Beta Hydroxy Acid product to take its full effect before using any skin lightening agent. These products will inherently lighten discoloration so you may not need bleaching agents, at all. If you do need one, it should only be for spot treatment and for a relatively short period of time (not more than 3 months as recommended by the FDA).

Q. I have been on Accutane® but I had a little flare-up. Can I use this product?

- A. Only if you have been off Accutane® for at least two months. Accutane® remains in the body for months. The two products can be overly irritating when used simultaneously.

## B-KLEER™ ULTRA 20 PADS

### INDICATIONS

- ◆ Use for advanced acne
- ◆ To remove the oils, fats and other lipids present in oily and acne-prone skin, while it exfoliates surface acne.
- ◆ To improve the softness and texture of the skin.

### KEY FEATURES

- ◆ Remarkably efficient for deep pore cleansing.
- ◆ Easy, simple to use disposable pads.
- ◆ Concentration of 20% Glycolic Acid.
- ◆ Glycolic Acid stimulates collagen and fibril tissue and has been clinically proven to improve acne scarring.
- ◆ Excellent product for anyone with moderate to advanced acne
- ◆ Will help to dry the pores that contain sebum.
- ◆ Will cause the skin to exfoliate thus helping the acne healing process.
- ◆ Use twice daily
- ◆ Use both sides of the pad for optimum coverage.
- ◆ Can be used over Ultra 10 Lightening Gel.

### DIRECTIONS

- ◆ For best results, cleanse the face or affected area first with neutral cleansing bar, B-Kleer™ Antiseptic Wash, B-Prox 2.5%, or B-Prox 10% Cleansing Lotion. If this is not possible, you may simplify the routine by only using the B-Kleer™ Ultra 8 pad.
- ◆ Wipe pad lightly across all affected areas. Use twice daily.
- ◆ Allow to dry for 5 minutes.
- ◆ Apply sunscreen daily for maximum protection. Sunscreen should be applied at least 30 minutes prior to getting into sunlight for optimum effect.
- ◆ Do not over-apply and do not over-use.

### CAUTION

- ◆ For external use only.
- ◆ Keep out of reach of small children.
- ◆ Avoid contact with eyes and mucous membranes.
- ◆ A mild transient tingling may occur for a few minutes in people with sensitive skin. This is normal.
- ◆ You may see a mild acne outbreak in the first few days. This is normal. It is bringing impurities to the surface and beginning to cleanse the pores.
- ◆ If irritation develops and continues, discontinue use.
- ◆ We highly recommend the daily use of a broad-spectrum sunscreen with this product (see user instructions).
- ◆ **Do not use an alcohol-based astringent when using this product. It may be too drying.**
- ◆ **Do not use if you are on Accutane® or for six months following Accutane® treatments.**

**INGREDIENTS:** Water, SD Alcohol 40, Glycolic Acid, Ammonium Hydroxide, Propylene Glycol, Polyquaternium 10, Tetrasodium EDTA.

## **B-KLEER™ ULTRA ACNE GEL**

**OVER THE COUNTER (OTC) DRUG**  
**AHA / BHA ACNE COCKTAIL**

### **INDICATIONS**

- ◆ Use for moderate to advanced acne
- ◆ A topical medication for the treatment of acne.
- ◆ Gently exfoliates encrustation and acne pustules.
- ◆ Penetrate pores to eliminate most acne pimples.
- ◆ Reduce the severity of acne blemishes.
- ◆ Help prevent new acne blemishes from forming.
- ◆ Loosen dirt and oils in trapped pores.

### **KEY FEATURES**

- ◆ Powerful anti-acne cocktail combining the exfoliating and stimulating properties of Glycolic Acid with the desquamation and anti-bacterial features of Salicylic Acid.
- ◆ 6% Glycolic Acid (AHA) for exfoliation, deep pore cleansing and to improve skin tone and texture.
- ◆ 2% Active Salicylic Acid (BHA) to help exfoliate and dry acne pustules.
- ◆ Three extracts to soothe the skin from any possible irritation. This includes Glycyrrhiza Glabra Extract (Licorice), Thea Sinensis Extract, and Anthemis Nobilis Extract.
- ◆ Chlorhexadine Diglyconate is a topical antiseptic.
- ◆ Malaleuca Alternifolia Oil (Tea Tree Oil) has antiseptic properties and also accelerates healing of skin disorders.
- ◆ Tocopherol Acetate (Vitamin E) is an antioxidant and preservative.
- ◆ Retinyl Palmitate (Vitamin A) offers skin healing properties and improves skin thickness for fuller body.
- ◆ Excellent for spot treatment of acne day or night.
- ◆ Creates rapid exfoliation of acne pustules.
- ◆ Should show improved skin within three to four weeks.
- ◆ Improves tone and texture.
- ◆ Will not overly dry the skin.
- ◆ Works well under makeup.
- ◆ May be used twice daily.

### **DIRECTIONS**

- ◆ Cleanse the face with Neutral Cleansing Bar, B-Kleer™ Antiseptic Wash, B-Prox 2.5%, or B-Prox 10% Cleansing Lotion.
- ◆ Pat skin dry.
- ◆ Lightly and evenly cover the affected area with a thin layer of B-Kleer™ Acne Gel 1-3 times daily.
- ◆ Do not over-apply. Pat excess with tissue.
- ◆ Start with 1 application daily and then gradually increase to 2-3 times daily if needed or as directed by a physician.
- ◆ If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

## CAUTION

- ◆ For external uses only.
- ◆ Do not apply to open skin.
- ◆ Keep out of reach of small children.
- ◆ Do not use if pregnant.
- ◆ Do not use while on Accutane®.
- ◆ Avoid direct contact with eyes and mucous membranes.
- ◆ Mild or transient tingling may occur if you have sensitive skin.
- ◆ If you wear contact lenses, wash hands thoroughly prior to touching lenses.
- ◆ If irritation develops, discontinue use.
- ◆ Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.
