

Beauty Call

BELMONDO ORGANIC SKIN CARE

[BY NOA GLOW]

➔ Daniela Belmondo's Italian heritage has had a huge hand in how she cares for her skin—and how she wants to help you take care of yours. "I spent my childhood [in Italy] watching my grandmother and the other women put olive oil on their hands, face and body," she says. "It was so simple, and it worked beautifully."

After moving to Vancouver and becoming a licensed esthetician, Belmondo (her last name literally translates to 'beautiful world') decided to create her own line of beauty products that would merge her Italian sensibilities with the abundance of natural ingredients found right here in B.C.

Today, nearly every offering in her locally, lovingly made Belmondo Organic Skin Care line—from calming, cleansing and hydrating clay face masks to rich, creamy body butters to a simply scrumptious nourishing lip balm that smells just like a cup of piping-hot chai—includes an organic olive oil base sourced directly from Italy.

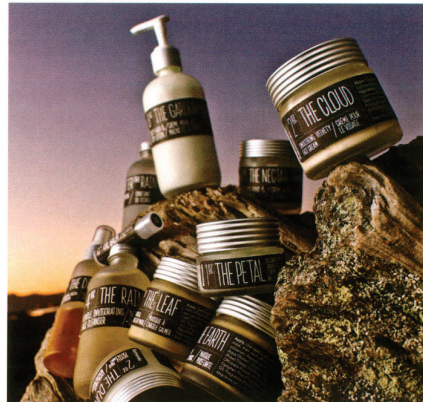

Other "incredible ingredients" that will protect, nourish and enhance your skin include: apple cider vinegar (perfect for cleansing), real fruit and flower extracts (pomegranate, rose, chamomile and calendula, to name a few), witch hazel (Mother Nature's very own toner), beeswax, vitamins and pure essential oils.

The best part: every ingredient is instantly pronounceable, recognizable and wholly organic—no mystery additives that read more like tongue twisters than things you'd want to put on your skin. You can shop for Belmondo Organic Skin Care products online at belmondo.ca or at Nadia Albano Style Inc. on Granville Street—nadiaalbanostyle.com.
