

**IMPORTANT: IN LIGHT FIXTURES USE ONLY T8 LAMPS
FOR ELECTRONIC BALLAST**

WB ASSEMBLY INSTRUCTIONS

- Remove any protective mask that may be left on the sink.
- Attach the four legs to the main sink pan using the 5/16" x 1¼" carriage bolts provided.
- If your unit is equipped with backlighting, you will have received an AIR ELECTRIC switch with your sink. Plug the AIR ELECTRIC switch into a GFI protected outlet. Place the hose and foot bulb in a convenient location on the floor.
- Plug the light bar cord into the receptacle on the AIRLECTRIC switch.
- To operate light, step on the foot bulb - once to turn the light on and again to turn it off. There is no need to keep the bulb depressed.
