

FLORAintheSKY

After the huge success of loft & bunk bed AMBERintheSKY perludi now created her perfect little sister FLORAintheSKY. Even though their design is undoubtedly similar FLORA scores with brand new features.

FLORA does not use loden as a surface. Instead FLORA has corners sewn together with colorful strings made of 100% cotton and can also be converted to a low single bed.

BEAUTIFUL. FLORA, just like her big sister AMBERintheSKY, is an exclusive and innovative bed for children and adolescents that is characterized by timeless design and high quality materials.

FUNCTIONAL. FLORA, depending on your individual preferences and needs, can either be used as a bunk bed with an integrated playing level or as a classic bunk bed for two children.

NATURAL. FLORA is made from natural materials using birch plywood and cotton strings.

PLAYFUL. One level is always variable. Without the mattress it can be converted to a pedestal, to a cozy corner or to a homemade cave. The bed is specially designed to fulfill the playing needs that every child has. The ladder is available, fully integrated, on either the left or right side.

UNUSUAL. FLORA, with a height of 135cm, is the lowest available bunk bed worldwide. This facilitates the access to the upper level for children and parents can wish their children a 'good night' at a comfortable height.

INNOVATIVE. Cotton strings hold the structure together at the corners. This simple method invites children to help their parents assemble the bed. This way the 'young builders' learn to understand how the bed works and may even want to design later on. The upper part of the bed can also be set up as a single bed at a „normal“ level - just tie it differently!

Strung bunk/loft bed for children and youths.

Environment-friendly materials
100% recyclable
compact packsize
simple self-assembly,
stable, safe and robust

We recommend children under the age of 5 to sleep in the lower sleeping area only.

dimensions: l x w x h
94x194x135cm,
other length (200cm)
upon request

height to sleep surface: 110 cm

packaging: 3 parcels with a total
weight of 90 kg
140 x 60 x 12cm,
120 x 55 x 12cm,
100 x 60 x 15cm

material: birch plywood and
100% cotton
