Marquetry is an elaborate form of inlay which usually includes floral patterns and a wide range of other motifs, such as birds, urns, shells and scrollwork.

Antique marquetry decoration has a soft and undulating surface caused by the shrinkage of the boards underneath.

Modern marquetry is flat and smooth and does not illustrate character.

We prefer to use the traditional 18th century methods. Our marquetry cutters are able to incorporate your family crest or company logo in any piece of furniture.
