Wakefield Brush manufactures a variety of traditional English chimney sweeping equipment to maintain and care for fireplaces, chimneys, and wood burning stoves. Wakefield Brush has been supplying England's chimney sweep trade for more than 60 years. Our hand made equipment ensures the finest quality that sweeps have experienced for decades.

Ordering and Customer Service

Call 800-264-7007

Email orders to sales@wakefieldbrush.com

Fax orders to 800-525-3427

Special orders

Need something special not in our catalog? Many items in our catalog can be manufactured in different sizes and with various fittings. Please call your sales representative for pricing and availability.

Returns

Please contact your sales representative for an RGA number if you would like to make a return. All returns are subject to a 25% restocking fee. Special and custom orders are non refundable and may not be returned.

Shipping

Most brushes are manufactured at the time of order providing you with the best brush possible. Generally, most orders can be shipped within 3-5 days if not sooner.

Payment

Credit cards - We accept payment by VISA, MasterCard, American Express and Discover. Please have your card number, expiration date and security code ready when ordering.

Prices

Prices are subject to change without notice. Please verify pricing at time of order.

Stiffness Guide

Please indicate the stiffness of your brush when ordering.

Soft White - (.025)

Medium Yellow - (.040)

Stiff Black - (.055)

Extra Stiff White - (.070)

Super Stiff Red - (.100)

About Our Brushes

Spiral Center

Standard 4" material depth allows easy passage through narrow damper openings

Lucky Dale style 8" material depth with extra bristles is ideal for prefabs.

Universal Fitting

European threads allow the brush to be easily screwed onto rod.

ButtonLok Fitting

Allows for quick connection between rod and brush. Can be spun clockwise and counterclockwise.

No Threads

Best for flues that are straight with no offsets or curves.

With Threads

Threads on leading edge of brush to accommodate guide balls to assist with negotiating bends.

Blockhead (Wooden Center)

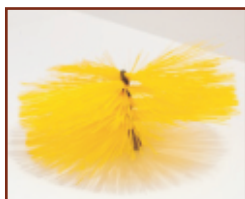

Traditional style chimney sweep brush. Handcrafted, glued, 4 rows of poly bristles.

Sizing

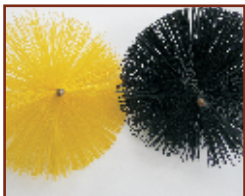

Brushes should be slightly oversized for the flues being cleaned. To use round brushes on square flues, brush should be slightly larger than the diagonal measurement of the flue to be cleaned.

Poly Spiral Brushes

Standard 4" Material Depth - Fits through tight damper openings easily

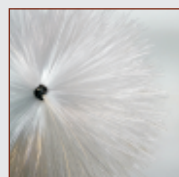

Without Threads

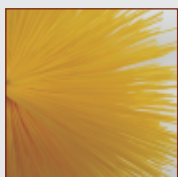

With Threads

Stiffness Guide

Please indicate the stiffness of your brush when ordering.

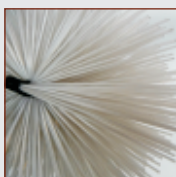

Soft - (.025)

Medium - (.040)

Stiff - (.055)

Extra Stiff - (.070)

Super Stiff - (.100)
