NEW PRODUCTS
TOOL-FREE ASSEMBLY
ECO FRIENDLY

TOOL-FREE ASSEMBLY

Don't spend hours looking for wrenches. Sprout products require no tools, no hardware, and are simple to assemble. Patented Tension Lock Tool-less Technology uses the natural properties of wood to create a sturdy, durable joint that can be assembled and disassembled repeatedly.

AMERICAN MADE

Support your local economy. All Sprout products are designed & manufactured from local materials here in the America. We have worked to create a lean and effective supply chain and smart design to stay competitive.

MODULAR

Inspired by childhood toys like LEGO, Sprout products are designed to be modular so you can mix, match and reconfigure your products.

RECYCLABLE

Sprout cardboard products & packaging are 100% recyclable and contain up to 30% recycled fiber. The majority of our wood products are made from pre-consumer recycled material. Even after your kids grow out of them you can be assured that you are doing your part for the environment.

ECO-FRIENDLY

We believe in the future of our children. That is why we feel a responsibility to preserve the environment and use resources wisely. We strive for efficient design and manufacturing from start to finish so that our efforts have a minimal impact on the environment and leave more for our children.

MINIMAL FOOTPRINT

Your space is precious, especially in a house with kids. We get that. Sprout products are designed to help you get the maximum benefit from you space. That is why we made them to assemble and disassemble easily and pack flat when not in use.

SAFE

Materials used in Sprout products are CARB-2 compliant. This means off-gassing from MDF used is kept to a minimum, less than 0.11 parts per million. Finished surfaces are protected by a durable coating made from paper infused with melamine, a resin used to make kitchen utensils.

ABOUT US

Since 2011, Sprout has been producing sleek and simple, modern kids furniture. Conceived with the ideals of creativity, simplicity, integrated design, and environmental/social responsibility, Sprout has worked to produce furniture that meets all the needs of today's modern family.

Each Sprout™ product is designed to delight and encourage creativity in the user. Leonardo Davinci said that "simplicity is the ultimate sophistication". We start the design process by considering how it will be manufactured, distributed, assembled, experienced, and interacted with. Through a cyclical process the design is distilled to a simplest solution where the natural properties of the materials almost tell us how they are best used. We hope you will be delighted as you discover Sprout.

WE WANT TO WORK WITH YOU

At Sprout we like to make modern kids furniture. If you are someone who likes to sell modern kids furniture then we can definitely help each other.

OUR DROPSHIP PROGRAM

We understand the challenges of running a business. That's why we have worked really hard to make our dealer process as streamlined as possible. We will provide you with everything you need.

- High-resolution images
- Detailed digital product information
- Automated FTP and EDI integration
- The ability to ship on your UPS or FedEx account
- Dealer portal with inventory, orders, tracking, and product info
- Visit sprout-kids.com/dealer to see all of our dealer resources

DO YOU SELL ONLINE?

We have built an extensive and up-to-date online resource to give you everything you need. Just set up your product pages using our provided resources and leave the rest to us.

DO YOU HAVE LIMITED RETAIL SPACE?

We still want to work with you. Set up a display model in your store and let us do the shipping straight from our warehouse. Your customers will get their product quickly and you won't have to use precious retail and warehouse space.
