**CHARGING YOUR SPEAKER**

- The battery must be fully charged prior to use. It takes approximately 15 hours to fully charge your Speaker (from depleted unit).
- Indicator Light RED - unit charging
- Indicator Light BLUE - unit fully charged

**Via AC Adapter/Wall Charger:** Using the provided Micro USB cable, connect your Speaker (Micro USB port) to the AC Adapter (USB port).

**Via Computer:** Using the provided Micro USB cable, connect your Speaker (Micro USB port) to the computer/laptop (USB port).

---

**PAIRING THE SPEAKER TO BLUETOOTH DEVICE**

Make sure the Bluetooth function is available on your cell phone, tablet, or other portable electronic device. Specific pairing procedures will be different depending on the device. For detailed information, please refer to the User Guide for your cell phone, tablet, or other portable electronic device.

1. Keep the distance between the cell phone, tablet, or other portable electronic device and the Speaker within 3 feet (for pairing only).
2. Power switch right to turn ON the speaker. You will hear prompt “Power ON” followed by “Bluetooth Mode.”
3. Activate the Bluetooth function of the cell phone, tablet, or other portable electronic device to search for Bluetooth devices. You will hear prompt “Pairing”. Bluetooth LED light will flash blue light. Select “DECO-SM ROUND” in the device display list.
4. When Bluetooth pairing is successful, you will hear prompt “Paired.” The Bluetooth LED light will stop flashing and remain blue.
5. Your Speaker is now ready for use.

- After a successful pairing, devices will memorize each other and automatically pair the next time; you will hear the prompt “Paired.”

**SPEAKER BATTERY MAINTENANCE**

- When using for the first time, fully charging the battery is recommended. If speaker does not turn on for the first time, the battery may be low. Fully charge the speaker, then try turning it on again.
- Shut down the speaker after every use to increase the battery life. To keep the battery in good condition, use the USB cable provided by the manufacturer to charge the speaker.
- If not using the speaker for a long period of time, keep the internal battery charged (charge once every 3 months). This will extend the life of your Li-ion battery.
- Low battery will cause the buttons to malfunction or decrease the volume. Charge the battery to fix this problem.

**IMPORTANT SAFEGUARDS**

- Keep speaker away from any source of heat or exposure to sunlight. Do not put speaker in the fire, as it will result in an explosion.
- Do not attempt to dismantle the speaker in any way.
- If the input voltage is too high, it may damage the speaker. If the input voltage is too low, the speaker may fail to work.

**SPECIFICATIONS**

- Bluetooth Version: V4
- Frequency Range: 20 Hz – 20,000 Hz
- Effective Distance: 33 ft (10m)
- Speaker Unit Width: 4 in (10.4 cm)
- Li-ion Battery: 3.7V/300mAh
- Charge Time: Up to 16 hours
- Play Time: Up to 16 hours
- RF (Radio Frequency): 2.4 GHz (10m)
