POCKET JUICE™ PORTABLE CHARGER
12,000 mAh

Please read the manual in its entirety before using the device.

PRODUCT SPECIFICATIONS

Battery Capacity: 12,000 mAh
Type: Lithium Polymer
Lightning Input: 5V/2A
Micro Input: 5V/2A
Output 1: 5V/2.4A
Output 2: QC 3.0 (4.5V/5V/9V/12V)
Total Output: 5V/3.4A Max

CHARGING YOUR PHONE OR OTHER PORTABLE DEVICE

NOTE: For best performance, make sure that the Pocket Juice Charger is fully charged. Refer to opposite page for charging instructions:
1. Insert one end of the included Micro USB cable or the original cable that came with your device into the phone. Insert the other end into the USB port of the Pocket Juice Charger.
2. Turn the Power ON by pressing the Power ON/OFF button, the charging process will start. Charging time will depend on the type of device. Your device will display the charging progress. When charging is complete, disconnect.

CHARGING YOUR POCKET JUICE CHARGER

NOTE: Your Pocket Juice Charger comes pre-charged. Depending on a few factors, some of the battery might have discharged during transit.
QUICK POWER TEST: Perform the test by pressing on the Power button. The LCD Power Indicator will display the current power level.
A. Via AC Adapter/Wall Charger: Using the provided Micro USB cable, connect your Power Bank (Micro USB port) to the AC Adapter (USB port - not included).
B. Via Computer: Using the provided Micro USB cable, connect your Power Bank (Micro USB port) to the computer/laptop (USB port).
C. Via Lightning Cable: Using a Lightning cable (not included), connect your Power Bank (Lightning port) to the AC Adapter (not included).

If the charging is in progress, the LCD Power Indicator will display the power level. When the charging is complete, the LCD Power Indicator will display 100%. It will remain 0% until you reconnect your Pocket Juice Charger from the power supply.
