Pocket Juice™ 20,000 mAh LCD Power Bank

**PRODUCT SPECIFICATIONS**

- **Battery Capacity**: 20,000 mAh
- **Type**: Lithium Polymer
- **Lightning Input**: 5V/2A
- **Type C Input**: 5V/2A
- **Output 1**: 5V/2.4A
- **Output 2**: QC 3.0 (2.6V-5.3V/3A)
  - 6.1V-9.2A
  - 9V-12.1.5A
- **Type C Output**: 5V/3A
- **Total Output**: 5V/5.4A Max

**CHARGING YOUR POCKET JUICE CHARGER**

**NOTE**: Your Pocket Juice Charger comes pre-charged. Depending on a few factors, some of the battery might have discharged during transit.

**QUICK POWER TEST**: Perform the test by pressing on the Power button. The LCD Power Indicator will display the current power level.

- **Via Lightning Cable**: Connect Lightning cable to an AC wall adapter or computer/laptop USB port.
- **Via Type C Cable**: Connect Type C cable to an AC wall adapter or computer/laptop USB port.

It takes approximately 10-15 hours to fully charge your Pocket Juice Charger (from depleted unit). Once the charging is in progress, the LCD Power Indicator will display the power level.

When the charging is complete, the LCD Power Indicator will display 100%. It will remain lit until you disconnect your Pocket Juice Charger from the power supply.

**NOTE**: Once fully charged, the Pocket Juice Charger is able to re-charge most devices 11 times depending on the battery capacity of the device and the condition and age of the battery.

**CHARGING YOUR PHONE OR OTHER PORTABLE DEVICE**

**NOTE**: For best performance, make sure that the Pocket Juice Charger is fully charged. Refer to opposite page for charging instructions.

1. Insert one end of the original cable or the original cable that came with your device into the phone. Insert the other end into the USB port of the Pocket Juice Charger.
2. Turn the Power Bank on by pressing the Power ON/OFF button. Charging time will depend on the type of device. Your device will display the charging progress.

**IMPORTANT SAFEGUARDS**

- Do not use this unit for anything other than its intended use.
- Keep the unit away from heat source, direct sunlight, humidity, water or any other liquid.
- Do not expose the device to extremely high or low temperatures, as it may damage the battery.
