LED COLORS
Tap on the Lamp tab located on the bottom of the screen. Select either auto or manual control. For manual control, tap on the color selected. You may also adjust the brightness by sliding the controls to the left or right.

INSTALL APP
Download and install FREE app - spectra bulb.

INSTALL LED SMARTBULB
Turn off the power supply before installing the SmartBulb. It can be installed anywhere there is a standard light socket (ceiling, wall or table lamp). It can also be used as a nightlight once you adjust the brightness.

PAIRING THE LED SMARTBULB TO BLUETOOTH DEVICE
Make sure the Bluetooth function is available on your device. Specific pairing procedures will be different depending on different devices. For detailed information, please refer to the User Guide of your device(s).

1. Keep the distance between the device and the LED SmartBulb within 3 feet (for pairing only).
2. Make sure your LED SmartBulb is installed and on.
3. Activate the Bluetooth function of the device to search for the Bluetooth devices. After finishing the search, select “spectra bulb” in the device list displayed.
4. Launch the app and tap on the Connect tab located on the bottom of the screen. Select “spectra bulb” to connect.
5. Your LED SmartBulb is ready for use.

PLAYING MUSIC
Once you have successfully paired the LED SmartBulb, tap on the Music tab located on the bottom of the screen.

1. Tap on the On/Off tab located on the bottom of the screen. This will allow you to turn your SmartBulb on/off.
2. Tap on the Connect tab located on the bottom of the screen. This allows for easier light control.
3. Tap on the ON/OFF tab located on the bottom of the screen. Select either auto or manual control. For manual control, tap on the color selected. You may also adjust the brightness by sliding the controls to the left or right.

LED ON/OFF
Tap on the ON/OFF tab located on the bottom of the screen. This will allow you to turn your SmartBulb on/off.

SETTINGS - Continued
FOR MULTIPLE USAGE:
To keep track of your multiple Smartbulbs, you may choose an option to name each one (ex. kitchen, livingroom, etc). This allows for easier light control.
1. Rename the Bluetooth name and press OK.
2. Tap on the Connect tab of the app. Select the “spectra bulb” to disconnect it.
3. Ignore the Bluetooth device name “spectra bulb” on your device. Shut down the Bluetooth function on your device.
4. Turn off the power of LED SmartBulb.
5. Turn the power back on and start the Bluetooth pairing procedure again.

IMPORTANT SAFEGUARDS
• Keep out of reach of children. This product is not a toy.
• Do not install this product near water, in humid conditions and/or near hot surfaces.
• Do not tamper with the product.
• Before removing the Smartbulb, always turn it off.
