

## Getting your Calavera sizing down

One of the challenges of ordering online is picking the right size. At Calavera we developed a unique way of pin-pointing the optimal fit for you.

For our swimtops, find the 2 components of your bra size to identify the box with the size that is most likely to fit you nice and snug, and use your dress size for our other items.

While the tables below are the most likely size to fit you, it is still a guidance and not a guarantee.

If you prefer a personal touch, just hit the CONTACT tab, and send us your bra size and dress size.

Information such as height, weight, underbust/overbust measurement and hip measurement (widest part) are also helpful should you want to include them.

### BIKINI TOP SIZING (Bra size)

Our bikini tops GLAM, SIREN, LIFE GUARD and HALTER are sized to match your bra size.

Our one-piece swimsuits CORE and RETRO also follow your bra size.
