*"Inspiration distilled from cutting edge urban fashion + lifestyle + art"*

As product design increasingly trends toward minimalism, many companies have trimmed down their concepts at the expense of empowering the individual to elevate personal image. Not at Loop Attachment. Our inspiration is distilled from diverse stylistic references on the cutting edge of urban fashion, lifestyle, and art. We balance the common conviction for slim, space-saving, discreet design with the desire for individual expression. Our overarching goal is to add value to our cherished devices by not only complementing them aesthetically with the infusion of urban vibrance, but always remembering to set those devices where they belong—front and center.
