## Lighting

**Country House Lighting:** We pride ourselves on offering interesting lights to our clients. We source our lights from all over the world and have an extended range available in the store.

**Italian Lamp Range:** Country House are the sole Australian stockist of a range of handmade ceramic lamp bases. Pictures of these lampbases can be found below.

**Measurements:** The lamp bases come in three sizes.

Small is 30cm tall with a diameter of 22cm,

Medium is 40cm tall with a diameter of 28cm, and

Large is 45cm tall with a diameter of 34cm.

These measurements have been taken from the bottom of the base to the base of the shade.

**Shade:** As the lamp bases have been made in Europe they have a wider fitting than is usually found in Australia. As such we have had shades manufactured specially for these lamps. Pictures of the shade can be found below, should you prefer a coloured shade we are happy to custom make shades for you.

**Shipping:** We are able to successfully ship these lamps all around Australia or the world. We are happy to provide you with a quotation for shipping.

**Price:** Price for the lamp base and shade is available in store.
