IPHONE 5/5s CASE + SECURITY LEASH

Protection and security for the iPhone 5/5s

Highline for iPhone 5/5s is a clever security leash and protective case system that provides peace of mind. Highline keeps your iPhone® safe from accidental drops, absent mindedness, and even deters theft, all while protecting it from scuffs and scratches. Feel at ease while using your iPhone to take photos and video in the most precarious situations. Whether you are on a chairlift, whale watching, zip-lining, rock climbing, or entertaining your child, Highline will be there to provide the ultimate protection for your iPhone.

MSRP: \$34.95

PROTECTIVE CASE

Highline's elegant snap-on case is made of tough polycarbonate. Equipped with an enclosed top and screen protective rim, it provides added drop protection, while the UV coated, crystal clear finish allows the beauty of your iPhone to show through.

LIGHTNING LOCK™

The proprietary Lightning Lock™ system safely plugs into the iPhone's lightning port while locking to a tiny notch in the case to create a simple, yet secure connection. Just click-in and click-out.

ELASTIC LEASH

Highline's coil is tough but compact, sliding into your pocket without crowding everything else out. Flexible and responsive, it goes from pocket to fully extended and back in moments. Reinforced with braided Kevlar, it can handle your toughest test.

KEVLAR LOOP

The abrasion-resistant Kevlar loop is super tough, yet thin enough to wrap around zippers, belt loops, stroller straps, purse handles, d-rings, carabiners, and more.
