

# YIXING CLAY TEAPOT

---

Perfect for steeping oolong teas

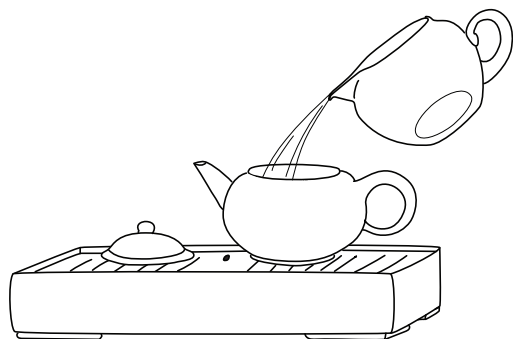

- 1** Place the teapot on a bamboo tea service box or tray.

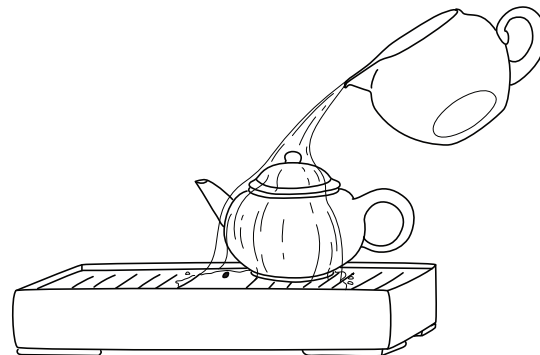

- 2** Add tea leaves to the teapot.

- 3** Heat water to the specified temperature in a separate pot or kettle.

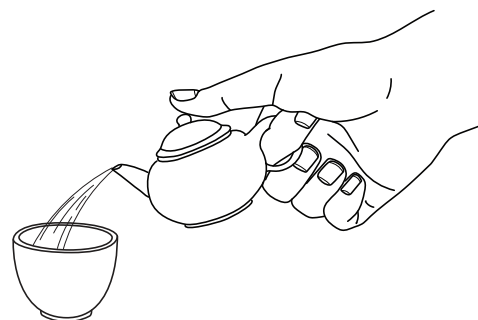

- 4** Pour hot water into the teapot until the pot is filled to the brim.

- 5** Place the lid on top of the teapot, then pour hot water over the lid to preserve heat.

- 6** Steep the tea leaves for the specified amount of time.

- 7** When ready, hold the teapot handle with your index finger and place your thumb on the lid, then pour the tea into your drinking vessel of choice.

**ENJOY!**
