

# GAIWAN

---

Perfect for steeping any tea type

**1** Add the specified amount of tea to the gaiwan bowl.

**5** Cover the gaiwan bowl with the lid and steep for the specified amount of time.

**2** Heat water to the specified temperature.

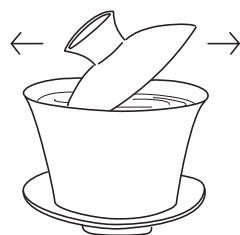

**6** When ready, tilt the gaiwan lid downwards. Then hold the tilted lid top with your thumb, and the saucer with your fingers.

**3** Pour water down the side of the gaiwan bowl until it is completely filled.

**7** Using the tilted lid to strain the leaves, pour the tea quickly into your drinking vessel of choice.

**4** Submerge the tea leaves by moving the gaiwan lid back and forth.

**ENJOY!**
