MEDIA RELEASE

Fresh products attract new customers to Puckles

26 April 2012

Freshly baked products and real ingredients are proving to be a winning mix at Puckles Family Bakehouse.

With its first store open at Orion Springfield, and plans for more stores this year, Puckles continues to attract customers to its quality products.

Puckles Director Steve Plarre said the business uses only the best, ethically sourced, high quality ingredients.

“Our custard tarts have real vanilla custard made with free-range eggs; our éclairs and cakes use only real cream; our meat pies and tiddly oggies (pasties) use hormone-free beef and free-range chicken; and our sausage rolls use real meat,” Steve said.

“You can really taste the difference,” he said.

“We finish the cakes fresh in-store for that homestyle quality, and we bake our savouries in small batches so they are as fresh as possible for our customers.

“Our traditional menu features classic baked treats, celebration cakes, a Bake at Home range, and party food packs, but we’ve certainly added some fresh ideas with products like our popular, official Angry Birds cupcakes.”

Visit Puckles Family Bakehouse for a firsthand taste, at Shop 36, 1 Main Street, Orion Springfield. Customers can also browse the range and shop online at puckles.com.au, ready for collection the next day.
