Beds & Loungers

Looking for a little pop of color for your living room? Well, these stylish cat beds from [Fleabag Beds](#) are just the thing. Handmade in Los Angeles using only the finest designer fabrics, there's nothing ordinary or bland about these cat beds. The line was created by designers Sabina Vavra and Chelsea Hernandez (also TV personalities in Laguna Beach) who were searching for bold, graphic, and contemporary designs for their furry friends.

The beds come in three sizes and all have removable, washable fabric covers. Check out the current selection at [Fleabag Beds' Etsy shop](#).
