

THE AMBASSADOR

by Gentleman's Brand

ESPIONAGE PEN

The Espionage pen is the smaller of the two pens. To turn it on or off click it five times. When the battery needs to be recharged the end will blink red. While it charges it will change colors from red to yellow to solid green when it is fully charged. Do not leave your fully charged pen connected as it will decrease its battery life.

CHARGING

To charge the Double Agent pen unscrew the bottom cap and plug in the USB charger. The red light means its charging. When the red light turns off it's done charging. After using it the light will blink to indicate it needs to be recharged. When you charge the Espionage pen it will change from red to yellow to green. When it's solid green it's fully charged and should be disconnected to preserve battery life.

HEAT SETTINGS

The Double Agent has 3 heat settings that you can adjust by clicking the trigger 5 times rapidly. Start on the lowest heat setting (red) so you don't burn your cartridge. Red is the lowest, purple is medium, and blue is the hottest. Just remember that purple is a mix of blue and red so it's the middle heat setting and that the temperature starts low and gets hotter. That means that the color after purple (blue) is the hottest.

ACCESSORIES

Your kit comes with a K808 adapter and a heat shield cone. The thread adapter makes the Double Agent compatible with Blu, NJoy, and other popular nicotine e-liquid cartridges. Yes, that's right. You can use it as an e-cigarette as well. Check out organic USA sourced VG refills online at: www.gentlemansvapes.com.

WARNINGS

- Keep out of reach of children. Seriously.
- Do not store your pen in your pocket. It can turn on and burn you. Your friends will laugh.
- Do NOT use other USB chargers as they may deliver more power and melt your vapor pen. Contact support for a replacement charger.
- If your vapor pen breaks don't fix or modify your vapor pen. Contact us first and we'll help. If you attempt to fix it you risk serious injury and we won't honor any warranty.

WARRANTY

We guarantee the Ambassador Kit to be free from manufacturing defects for 6 months from purchase. After 6 months we honor warranties at our discretion so please contact us. There are no warranties for used cartridges. Support@gentlemansvapes.com
