Introduction

iSee310 adopts air pressure and hot compress massaging technology. It rubs, presses, hot compresses, and massages the ocular region in order to relax it.

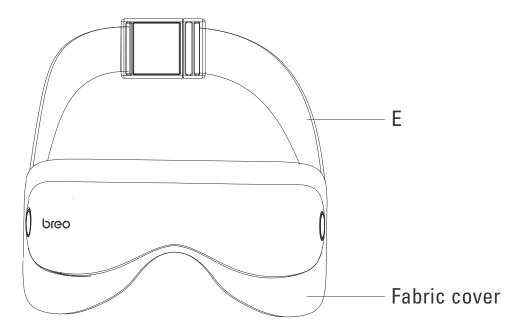

Inside the Package

The package includes: Main Unit, Controller, AC Adapter, Batteries, User Manual.

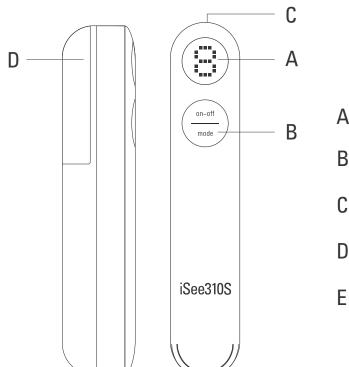

Function Deployment

Main Unit

Controller

- A. LCD Screen
- B. Operating Buttons
- C. DC Power Port
- D. Battery Cover
- E. Main Unit

Preparation

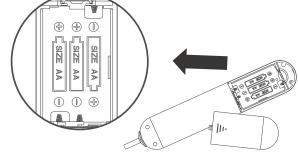

Prior to use, check the integrity of the machine and accessories:

- a. No damage on connection between controller and main unit
- b. Battery power is sufficient
- c. No damage on AC adapter

Power Options

1. Batteries

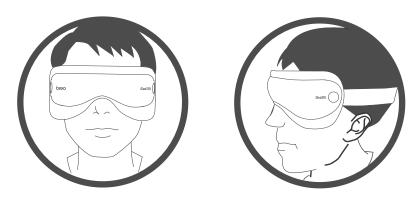

- a. Open the battery cover on the back of the controller.
- b. Install 3 AA batteries in accordance with the positive and negative poles.
- c. Close the battery cover.

2. AC Adapter

- a. Insert the AC adapter in the controller's DC port.
- b. Connect the other end to AC power socket.
- * Choose power option #1 OR #2.

Wear

Operation

Power on – Press and hold Button
Preset default is air pressure + hot compress for 15 minutes.

Manually operate related function buttons to switch between air pressure and hot compress modes.

Power off – Press and hold $\frac{\hat{Q}_{Q}}{\hat{Q}_{Q}}$ Button again

Manual mode

ON-OFF/Hot compress Button – Press and hold ON-OFF to start up the machine (into preset mode); Press the same button to select hot compress modes (low or high temperature)

Press and hold it again to shut down the machine

Mode/Air pressure Button – Press Mode button to select from 3 modes (Relaxing / Soft / Comfortable)

Precautions

- 1. Please read the manual carefully and operate accordingly.
- 2. Children under 7 years old cannot use the massager.
- 3. This massager should not be used by:
 - a. People who suffer from brain disease or have undergone brain surgery
 - b. People who are suffering from glaucoma, retinoschisis, or other serious eye diseases
 - c. People who have physical or mental disorder
- 4. Take off contact lenses/eye glasses before use.
- 5. Put on/wear the unit first BEFORE turning the power on.
- 6. Do not use while walking or driving.
- 7. Keep your eyes closed for a few seconds after use, then open them slowly.
- 8. Keep the massager away from humidity, heat, and/or corrosive gas.
- 9. If the massager will not be used for a long time, remove the batteries to avoid battery leakage.
- This massager is designed as a personal care product. It is not for diagnosis/treatment of any health disorder, nor meant for commercial use.
- 11. To clean, wipe with aseptic cotton and alcohol. Do not wash or immerse in water.

- 12. This product is not a substitute for healthcare professionals' advice and treatment. In case of doubt or if necessary, please consult your healthcare professional.
- 13. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) this device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
- 14. Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- 15. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
