Our bags come in various colors and are made in most cases of vinyl plastic with a full-length zipper. Two zipper styles are available from a straight down the middle, or the alternative an envelope style zipper, both with 2 pulls. Depending on the design, there are padded handles (our most popular) or nylon straps to facilitate lifting. It is also possible to write information on the plastic surface of a body bag using a marker pen. Alternatively, some designs of body bags have transparent label pockets as an integral part of the design, into which a name-card can be inserted. You can Tag 'Em by simply adding a conventional toe tag to one of the lifting handles if required. Body bags are not designed to be washed and re-used, with good reason: aside from the obvious hygiene and health concerns, re-use of body bags could easily contaminate evidence in the case of a suspicious death. Select from our multiple choices of bags and zipper designs

All of our I.D. tags can be printed with the desired information to meet your specific need

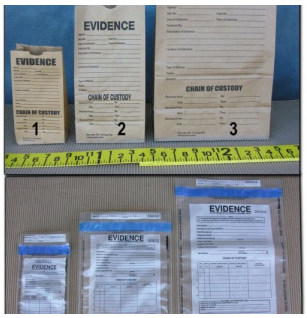
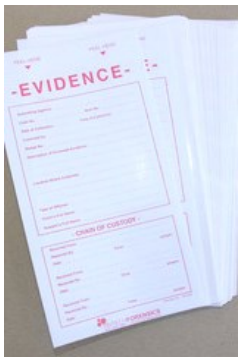
Heavy-duty, 4 mil polyethylene tubing bags. For packaging odd-size items or extra large evidence.
Make your own fit-to-size evidence bags.
Slip the length of tubing over the item your securing.
Roll Length: 1100'.

$119.00



Call for pricing

Get evidence bags in any quantity. Order just a few bags in single quantities (1 pk) or save money and buy a 100 pack.
Paper Evidence Bags: Our paper evidence bags are brown paper with a printed area to list the chain of custody. Bags are priced according to size and quantity.
1) S, 5 1/8 x 3 1/4 x 9 1/2 inches
2) M, 7 x 4 x 13 1/2 inches
3) L, 12 x 7 x 17 inches



Evidence Labels
Our 3.5" x 6" labels can be affixed to virtually any surface to identify and maintain a chain of custody
• Excellent for use with plain plastic bags, check sleeves, unprinted paper bags or boxes.
• Place these labels directly on evidence such as tires, bicycles or the undersides of stereos or televisions.

Price: $4.50 /10
$16.75 / 100

These red-orange biohazard bags meet the Federal EPA guidelines for film strength and color coding. They are large enough to hold a set of clothing. The bottom is tucked for added reinforcement. "Danger - Infectious Waste" is printed in English and Spanish with the international symbol for biohazard.

Small Biohazard Disposal Bag: $25.00
24" x 24" 1.2 Mil Thickness
Large Biohazard Disposal Bag: $47.00
33" x 40" 1.3 Mil Thickness

Bright yellow official crime scene barrier tape is useful for blocking off danger areas. Restrict access to crime scenes and messy bedrooms with this highly visible yellow polyethylene tape. Printed with large black letters.

Price $8.95 / 100 ft

This 2" Evidence Sealing Tape is perfect for all evidence sealing jobs. The bold imprint is easily recognized and very popular for evidence packaging.
Rolls are 2" x 165'.
Black on Red

Price $ 13.00 a roll

Code: ARSON-CAN-
These cans are unlined to prevent any contamination of evidence collected at the scene and to allow for head space analysis at the lab. Metal cans are the preferred containers for gathering arson evidence and liquid accelerant samples, as accelerants may deteriorate other types of storage, such as plastic bags. The pint and quart cans come in a pack of 4 and the gallon cans come in a pack of 2.

Gallon—$37.95
Pint and Quart $25.95

Post Mortem Print Spoon

A Postmortem Print Spoon facilitates the recording of friction ridge detail from deceased individuals. After inking the fingertip, simply position a Postmortem Fingerprinting Strip in the four tabs of the spoon and press onto the finger. The curvature of the spoon will record substantial detail. For use with Postmortem Fingerprinting Strips

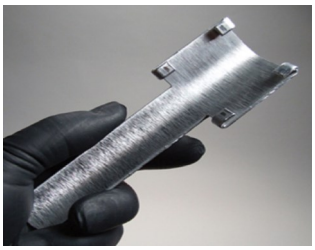
Pricing: $19.50

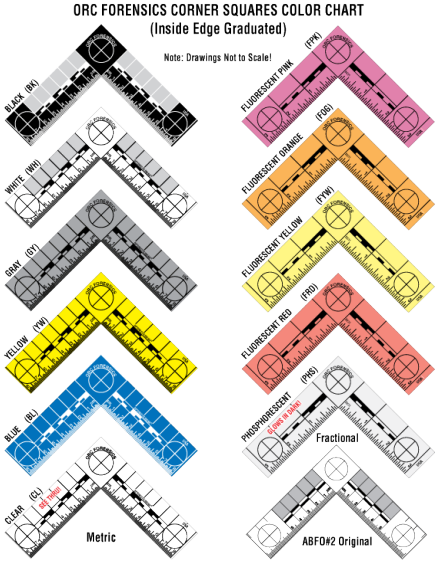
Post Mortem Strips

Specifically designed for recording hard to obtain deceased and rolled inked impressions. Unlike other postmortem strips with improperly numbered finger blocks, these strips are consistent with the finger block numbers on a standard fingerprint card, right hand 1-5, left hand 6-10. Postmortem Strips should be used with the Postmortem Print Spoon. Printed on flexible card stock, 8" x 1 ½".

Quantity: 100/pkg, 50 right/50left

Pricing: $10.50





The four high quality materials used in making these Inside Edge Graduated Corner Squares are paper (thick card stock), paper with adhesive backing, plastic (.03 TK), and plastic with magnetic backing. Most colors can be applied to any of the materials. Exceptions, like not being able to put magnetic backing onto a clear corner square, are noted by their part numbers being absent in the pricing charts below. The adhesive backed corner squares come on a liner and have a high tack adhesive so that you can stick it anywhere and remove it without causing surface damage or leaving a residue. The Phosphorescent color is one that glows in the dark after absorbing light energy creating a light green/yellow shine

Available in metric and fractional .
Please refer to website for color and pricing

Classic DNA Card is uniquely designed for convenient collection of bloodstains. The card is constructed of Fitzco FP705 DNA paper using materials that will not effect the sample. The cards have sample circles spots for easy collection. Sample punching is easy and consistent for sample analysis. The covers are designed for protection as well to help the sample dry

$185.00 package of 100

Improved syringe collection tube is now available which meets OSHA requirements. It is made of a clear, heavy 30 mil. plastic tube with international biohazard markings printed in bright orange on the side. The end caps are also bright orange. The inside measurements of the tube are 7 3/4" long by 1" in diameter. One end cap is not removable. This end contains an inert sealing material which will enclose the "business" end of the needle. This sealing material is designed to prevent leakage of the contents of the syringe.

$32.95 / 12 tubes

$3.75 / each

12 tubes to a pack

Heavy-duty Thick Wall construction of both base and lid
Leak proof
Drip ring reduces the chance of contamination
Wide base design for stable, reliable use

Knives designed to cut and dissect tissues during procedures performed on the body following death (i.e., postmortem procedures). These knives typically consist of sturdy handheld, manual instruments with a proximal handle and an integral cutting blade at the distal end. Postmortem knives are used mainly during autopsy and cadaver dissection. Dedicated postmortem knives are available for a variety of procedures, including grossing, organ dissection, and trimming

Vacutainers

BD - 367925

Code: BD - 367925

BD Vacutainer® Fluoride Tubes are used to collect samples for glucose determinations.
Plastic
Draw Volume: 6.0 mL.
BD Hemogard™/Gray Closure.
Paper label.
Additive Concentration:
Sodium Fluoride 15mg,
Potassium Oxalate 12mg.

Tray of 100 /10 trays to a case

Price : $54.95 / tray
$495.00 / case

MonoJect Tube 307006

Code: MONO –307006

Monoject® Sterile Blood Collection Tubes For General Chemistry and Serology Procedures For Trace Element Testing.

Trace element - Available with no additive, EDTA, or Sodium Heparin. Tubes used for laboratory procedures requiring plasma or whole blood. Toxicology and nutritional studies.

Code: SYR-118200777-CS

SYR-118200777-BX

12 CC/ML MOMJECT LUER LOCK SYRINGE

- **Bold graduations: 0.2mL**
- **Luer lock syringe tip units**
- **Color-coded translucent needle hub**
- **Oriented, compact package**
- **Autoclavable in rigid pack Sterile**
- **Latex FreeSyringe,12 CC/ML Monoject,COVIDIEN/KENDALL, Luer Lock Softpack**

Packaging : 80/Bx 6 Bx/Cs 480/Cs.

Price : $12.50/ box
$66.00/ case

Code: SYR-1182000777-CS
