

**THANK YOU**  
for purchasing your Soapbox.

→ LET'S DO THIS!

## 1. UNPACK!

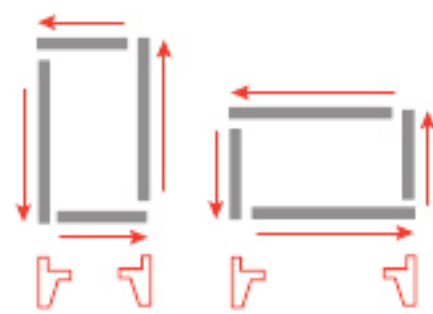

Before you begin assembly, check all pieces from the shipping carton against the enclosed packing slip. Every Soapbox is a custom configuration, so make sure you received exactly what you ordered.

Generally speaking, every order should include  
4 wood panels and 8 pieces of hardware:

→ To protect your shiny new Soapbox - and your floors - we suggest assembling on top of the flattened cardboard your Soapbox arrived in (and please remember to recycle the carton when you're through!).

**2.** Your choice - decide whether to orient your Soapbox horizontally or vertically.

**3.** Starting with box corner (a), stand up both wood panels on their thin edges, so they make an "L" shape from above. Note that each corner will overlap the next. see →

**4.** To place the first hardware bracket (a), angle the inner lip of the bracket and press firmly over the edges of the wood panels, then slide the bracket down. see →

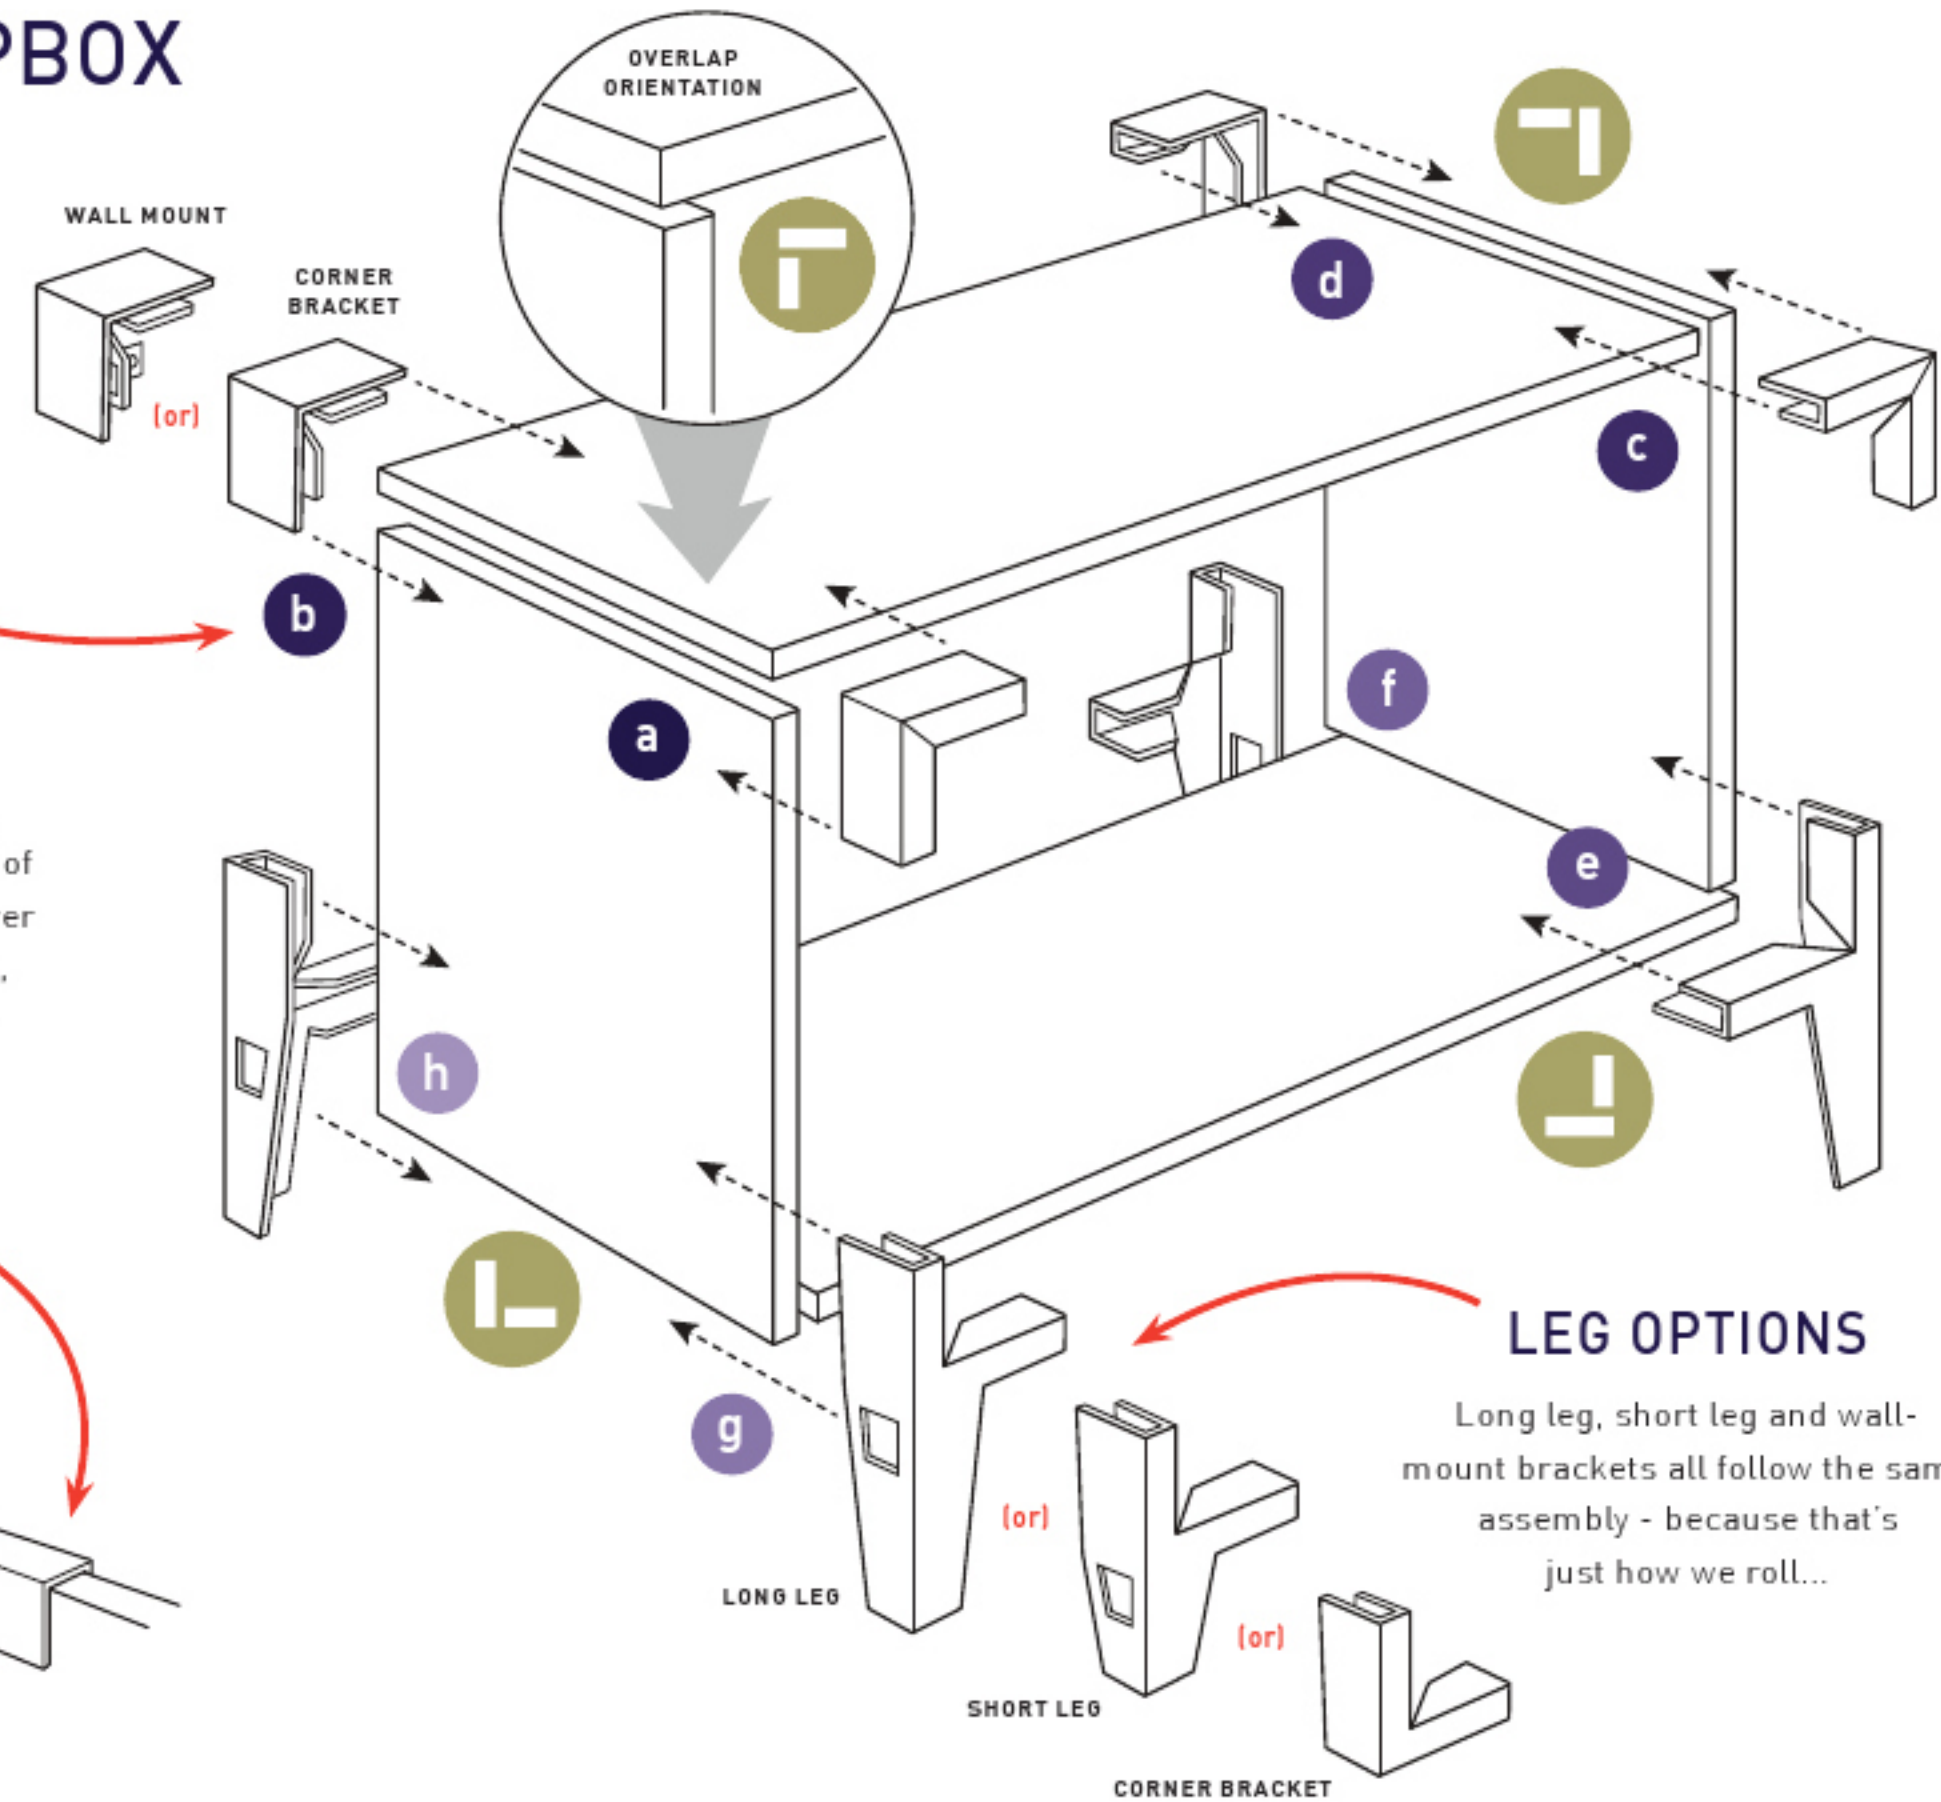

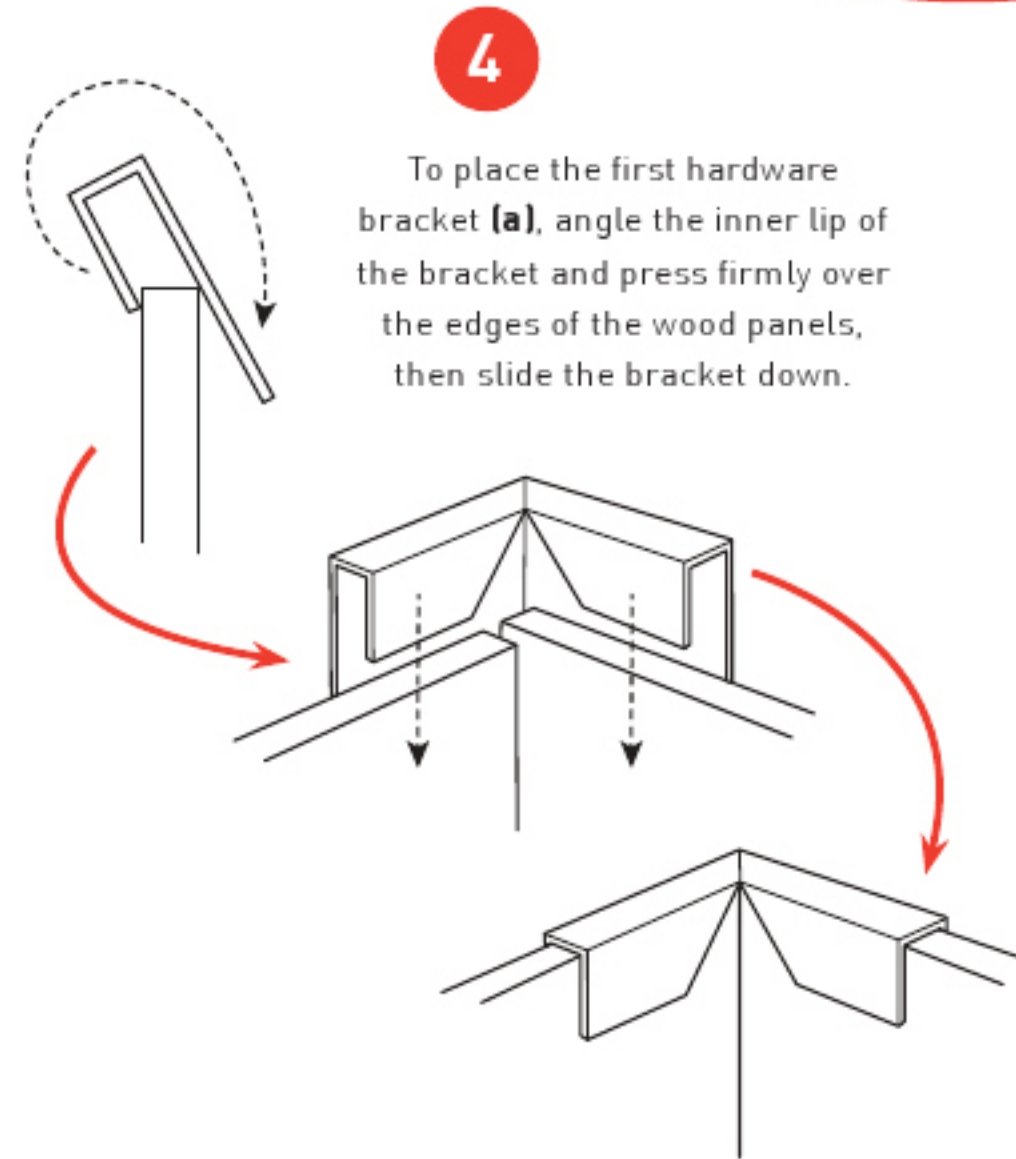

→ Our real wood veneers vary ever so slightly in thickness, making some corners tighter than others - a dish towel and a few taps with a rubber mallet may be needed to produce a snug fit. **Be gentle!**

## ANATOMY OF A SOAPBOX

### EASY AS (a), (b), (c)...

We recommend that you assemble each corner in alphabetical order - trust us, it will make your life easier!

### LEG OPTIONS

Long leg, short leg and wall-mount brackets all follow the same assembly - because that's just how we roll...

**5.** Continuing in alphabetical order with corner (b), work all corner brackets, legs or wall mounts into place using the same method. All hardware joins up the same way!

- Leg brackets should be fitted onto corners (e), (f), (g), & (h).
- If hanging your Soapbox, wall mount brackets should be fitted onto corners (b), (d), (f), & (h).
- Fitting the hardware onto each corner may produce some small wood shavings - this is to be expected. When finished with assembly, lightly wipe down all surfaces with a dry rag.

**6.** All hardware in place, turn your Soapbox upright...  
**HUZAH! You're ready to rock!**
